VOL. 41

VICTORIA, B. C., FRIDAY, NOVEMBER 22, 1912

NO. 120

TURKEY IS DEFIANT TO ALLIED POWERS

WILL NOT EVACUATE THE TCHATALJA FORTS

Believed at Sofia That Invaders
Will Modify the Conditions
Named After Victories

London, Nov. 22.—"Come and take them," is the defiant reply of the Turks to the demands made by the allied Balkan nations for the evacuation of the line of fortifications at Tchatalja, in front of Constantinople. This is not believed in diplomatic circles necessarily to mean the end of the negotiations for an armistice, even though fighting has been resumed.

From Sofia comes word to-day that the victorious invaders are likely to modify their conditions.

The European powers, at the same time are exerting themselves to induce the nations composing the Balkan league to bring their terms more into line with the facts of the situation, and to arrange a treaty which will give them all they have conquered, but will leave out that which has not been conquered.

Compared with its earlier disastrous experiences, the Turkish army evidently now considers itself in a favorable position. Military experts here see in the temporary failure of the Bulgarian rush into Constantinople signs of a reaction among the invaders after their efforts of the past month.

In view of the fact that the Ottoman capital even if captured must ultimately be evacuated in accordance with the decree of the great powers, it appears that the allies have nothing to gain by insisting on the surrender of the lines which form virtually the gates of the city.

Hence the hope expressed by diplomats is that this demand would be withdrawn, in which case it is thought Turkey, recognizing she has no prospect of taking the offensive for the recovery of her lost territory would quickly conclude that she has nothing to gain by continuing the conflict. She would perhaps agree to enter into negotiations on the basis of a surrender of all but a reasonable strip of territory at the back of Constantinople, the Dardanelles and Bosphorus.

May Modify Conditions.
Sofia, Nov. 22.—The indications to-day are that Bulgaria will adopt a conciliatory attitude, and will modify conditions originally offered to the Turkish government. A special meeting of the Bulgarian cabinet was held to-day to consider the rejection by Turkey of the terms of the proposed armistice. At its conclusion it was declared in well-informed circles that an immediate resumption of hostilities was improbable.

Constantinople, Nov. 22.—The rejection by Turkey of the conditions offered for an armistice between the opposing armies has been communicated to the Bulgarian government. One of the opinions held in official circles in Constantinople is that the conditions imposed by the allies deprived the Turks of the possibility of resuming hostilities in the event of the failure of the plenipotentiaries to settle terms. This from the Turkish point of view, means no armistice at all. Such conditions it is held here are only made when it is a question of the preliminary to peace and by accepting such terms as those presented by the allies, Turkey would be binding herself hand and foot. It is further insisted that Turkey has not sunk to that degree of impotence which would compel her to accept such conditions.

The terms stipulated by the Balkan states provided for the surrender of Adrianople with its garrison, for the evacuation of the Tchatalja lines in front of Constantinople, and for the surrender of Scutaria, Durazzo and Dibra. No mention is made of Constantinople or the Dardanelles.

The Turkish cruiser Hamidieh arrived here this morning in tow. The warship was down by the stern where she apparently had been struck by a torpedo. She was at once docked.

IMPRISONMENT ORDERED.

London, Nov. 22.—A peculiar situation regarding the penalty for non-attendance at camp by Territorial Militia members was revealed at Liverpool yesterday. The war office held that imprisonment should follow non-payment of fines but home office regarded such fines as civil debts. The home office, however, has now declared itself agreeable to the infliction of imprisonment.

HOE LIBRARY SALE

New York, Nov. 22.—The auction sale of the Robert Hoe library, the greatest event of its kind in history, will end to-night with the disposal of the last volumes in Part IV. The proceeds of the entire sale will amount to about \$1,000,000, falling just a few thousand dollars short of the two million dollar total which was predicted by experts when the disposal of the great library began about a year and a half ago.

TAKES HER OWN LIFE

Providence, R. I., Nov. 22.—The body of Miss Norma Garvin, daughter of former Governor L. F. C. Garvin, was found in New River to-day. Miss Garvin disappeared Wednesday evening. The body was in deep water, not far from shore. Members of Miss Garvin's family said that she had been unusually reticent during the last few weeks and had taken many evening walks. She had complained of trouble with her head and had expressed a wish that she would meet death in the water. A note found after she left home read: "I can't get the water off my mind."

M'MANIGAL TELLS OF DYNAMITE STEAL

THOUGHT TIMES JOB WOULD BLOW OVER

Smythe and Rae, Surrendered
by Bondsman Fail to
Get New Bail

Indianapolis, Ind., Nov. 22.—Stealing 1,200 pounds of dynamite, hiding it in a shed at Tiffin, Ohio, and then transporting it in suit cases on passenger trains to Indianapolis, was an experience related by Orrie E. McManigal at the "dynamite conspiracy" trial to-day. It was the explosive used by McManigal and the McNamara after the Los Angeles Times explosion, and by which ten non-union "jobs" were blown up, in spite of the fact, the witness said, that detectives for two months had been on the trail of the dynamite.

Confident that the agitators over the Los Angeles Times explosion would "blow over" and that James B. McNamara would be free to do "more jobs," McManigal added, plans were begun in January, 1911, to carry on the dynamite campaign with zest.

"When I reported to J. J. McNamara how easy it had been to steal the dynamite from a stone quarry at Bloomington, Ohio, and store it in my father's shed at Tiffin, he was pleased," said McManigal.

"I brought him several suitcases of dynamite, as a sample, and he took it up in a vault at the offices of the union. J. J. said he would send James B. over to help me carry it. We brought it in such quantities that J. J. said he couldn't store it all at the ironworkers' office. We had about 1,200 pounds."

"It was decided to rent a barn. We rented a barn on West Washington street, Indianapolis, owned by Daniel Jones. Jones helped us get a piano box, barrels and sawdust, in which we packed the explosive. We told him we were storing some old letters, but I took care to ask whether any children played about the barn."

"J. J. ordered us to cut all of the trademarks on the dynamite sticks because he said it had been a mistake to leave the trademarks on the dynamite purchased in San Francisco for the Los Angeles job."

Having the new supply of explosive McManigal said McNamara arranged to send dynamite out on "jobs."

"About this time," McManigal testified, "John J. was startled by receiving a newspaper account of the finding of a suitcase at San Francisco. J. B. said it was a suitcase containing fuses and clocks which he had checked. He had given the check to David Caplan, telling him to get the suitcase and drop it, but Caplan got 'cold feet' being afraid to show up where the suitcase was."

Edward Smythe and James E. Ray, ironworkers union officials at Peoria, who were arrested three days ago, after their bondsmen had surrendered them, had failed to secure new bonds of \$5,000 each to-day, and were confined to jail between sessions of court.

SEVENTEEN ELECTION OFFICIALS INDICTED

Miscounting of Votes Regarding
Women Office Holders
Now Grand Jury Matter

New Orleans, La., Nov. 22.—Discovery of the alleged miscounting of votes on a constitutional amendment permitting women to hold office in Louisiana has resulted in a general investigation by the grand jury. As a sequel to the examination of three ballot boxes, seventeen election officials have been indicted. The box in one river-front precinct, upon being counted, showed 22 for and 64 against the amendment, nearly half of the voters not marking their ballots. The tally sheets for this precinct showed six votes for and 175 against the amendment.

RECRUITING STOPPED.

Plymouth, Eng., Nov. 22.—It is officially announced that recruiting for the Canadian navy here has been indefinitely suspended.

CANADA HAS SPACE FOR POOR CHILDREN

EARL GREY'S SPEECH IN LONDON YESTERDAY

Rt. Hon. John Burns in Sym-
pathy With Project Voiced
to Commission

London, Nov. 22.—Giving evidence before the Dominion's royal commission, which concluded its sittings yesterday, Earl Grey urged that the poor children of Britain should be sent to Canada or to the other British dominions overseas.

In so far as Canada was concerned, he was satisfied they would be well cared for and well placed. He opposed the suggestion that the cost of their emigration should be borne by the Imperial government, and thought the Dominion government would be wise in making the investment itself.

Earl Grey also made strong appeals for the establishment of a central market in London at which the produce of the overseas dominions could be displayed and sold. Apart from the financial question, he thought there was no doubt that the people of Britain would prefer to buy the goods of their overseas kinsmen if it was possible to do so under the existing conditions.

They might establish a sort of Imperial Covent garden where there would be a Canadian stall, Australian, New Zealand and South African stalls.

In concluding his evidence Earl Grey strongly urged stimulation of the women's emigration movement under the direction of the excellent charitable organizations, and said more use might be made of the splendid and disinterested services of the Salvation Army.

Right Hon. John Burns, on being questioned regarding Earl Grey's proposal for emigrating poor-law children, said he was in full sympathy with the project, and also that the government was prepared to undertake a reasonable or increased expenditure for the purpose. He objected to the establishment of a central emigration board on the grounds that they would clash with the functions of the government departments.

FOUR ACCIDENTS FATAL AT JUNEAU

Tree Strikes William Hunt—
Frank Weaver and Another
Man Drowned

Juneau, Alaska, Nov. 22.—The week of November 16 has witnessed a number of fatal accidents at Juneau, in which four lives were lost. Sunday night a young man lost his balance and fell from the ferryboat while en route from Douglas. Every effort was made to save him, but owing to the darkness and heavy sea he was never seen again. His identity is unknown.

While felling trees at Sheep Creek, in one of the camps of the Alaska-Gastineau Company, Monday, William Hunt was struck by a falling tree and instantly killed. Hunt was a recent arrival, a native of England, but for many years a resident of Boston. He was unmarried.

O. H. Hurlburt reached town a few days ago after an adventure in which he says his friend, Frank Weaver, drowned, and he narrowly escaped death. The two men left here in a small launch bound for Ketchikan. While in the vicinity of Doty Cove, Weaver went forward in the launch to do some repairs. A sudden lurch threw him overboard. In his hurry to bring the boat around to his companion's rescue, Hurlburt broke the steering gear, rendering the launch helpless. A heavy sea washed the dinghy away, making it impossible to aid the drowning man.

The engine suddenly stopped and Hurlburt did not know how to start it. The boat gradually filled with water and was about to sink when it was blown ashore. Hurlburt found a prospector's camp and stayed there a week before returning to Juneau.

While putting a rifle into his boat, Thomas Madison, a fisherman, was accidentally shot when it was discharged. Madison was taken to the hospital, where it was found the bullet had entered the left breast, passing through a lung and coming out of his back, inflicting a fatal wound. The man was 60 years old, a native of Belfast, Ireland. He lost his wife and entire family in the Galveston flood some years ago.

HELD FOR RANSOM.

Washington, Nov. 22.—The state department received word to-day that William M. Finke, an American citizen, superintendent of the Sautoy Mining Company, whose camp is about fifteen miles from Chihuahua, is being held for \$5,000 ransom by the Mexican rebel band that captured Santa Eufrasia on Wednesday.

AUSTRIA ANSWERS SERVIA

London, Nov. 22.—The first classes of the reserves of six Austro-Hungarian army corps have been called to the colors, according to a news agency dispatch from Vienna. Three of these army corps are stationed in the north and three in the southeast of the Austro-Hungarian Empire.

NAVIGATION TIED IN LAKE SUPERIOR

HUNDRED VESSELS RUN FOR SHELTER

Worst Storm Experienced for
Year Very Few Boats Ar-
riving in Dock

Sault Ste. Marie, Mich., Nov. 22.—A terrific northwest gale has tied up navigation on Lake Superior during the last 24 hours. One hundred vessels are lying under White Fish until the storm subsides. The captain of the Filbert said when he reached the Soo this morning that the storm was the worst he had experienced this year. Very few boats arrived. The steamer Harvey Goulding left for Lake Erie port this morning. She had been detained putting on a patch on her starboard bow to cover a hole made by striking the upper northwest pier of the canal. She has on a cargo of 200,000 bushels of grain from Duluth to Buffalo.

BOGUS LAND DEALS IN THIS PROVINCE

RALPH SMITH FLAYS THE POWERS THAT BE

Gigantic Fraud Exposed—94,-
000 of Half Million Acres
in Women's Names

Vancouver, Nov. 22.—Vigorous and trenchant as ever was the attack upon the present provincial administration of British Columbia by Ralph Smith, speaking at the meeting last night of the Wards Five and Eight Liberal Associations in the Lee Hall.

With keen sarcasm he laid bare the faults of the unopposed Conservative regime. For himself, he declared that he would far rather have his provincial rights administered at present by the Dominion government, simply because there is a healthy opposition at Ottawa.

On one point in regard to the land policy, Ralph Smith laid burning emphasis.

"I have just read a marvelous thing in the British Columbia Gazette," he said. "In the British Columbia Gazette for October 3, 1912, you can see it for yourselves. It was that half a million acres of land in this province have been staked off by men who carried bogus powers of attorney, and staked the lands in the interests of people who were not there at all."

"Ninety-four thousand out of the half million acres staked off were in the names of women. A percentage was in the names of business men, 24 per cent of those half million acres were staked in the names of those representing the agricultural classes of the province."

"Only 24 per cent of the lands in question were staked by people who will really develop the lands to make them produce the things we need in this province. God made the lands to produce the things we need, and God knows we need those things badly enough in the province to-day."

"But the McBride government gives the lands wholesale into the hands of speculators, and Sir Richard McBride goes to Ottawa to seek Dominion powers to deplete still further the resources of the province in patronage doled out to his political friends."

SCHRAK INSANE

Milwaukee, Wis., Nov. 22.—The commission of ailments investigating as to the mental condition of John Schrank, who shot Col. Roosevelt reported unanimously to-day that he was insane.

INFORMERS TRACED

Cleveland, Ohio, Nov. 22.—Sam Scheppees, "Bridge" Webber, Harry Vallon and Jack Rose, the four informers in the Rosenthal case, were said by the conductor and porters to have passed through Cleveland to-day on the Lake Shore's New York-Chicago Limited, bound for their time in England.

R. L. BORDEN CAUSES ADVERSE COMMENT

PRIME MINISTER WAS ABSENT AFTER OPENING

Canada Will Pay for Ships
Built in England—No
Direct Contribution

Ottawa, Nov. 22.—That Premier Borden did not return to the Commons chamber after the opening in the Senate yesterday has caused a great deal of comment here, and it is considered of unusual significance that the Hon. Robert Rogers led in his absence. The opposition asked no questions.

It is believed by well-informed politicians that the naval policy will mean three ships built by Britain and paid for by Canada. They will be at the service of Britain, but will come back to Canada when not needed there for any emergency.

As a result of the nation-wide murmur against a direct money contribution, it is believed that such a step is no longer contemplated.

SLEEPER AWAKES.

Akron, Ohio, Nov. 22.—Mrs. Jessie Limric awoke from a six and one-half days' sleep at the city hospital to-day. Although very weak from lack of nourishment, hospital officials say she will regain strength rapidly and will be able to talk again within a day or two. Mrs. Limric sank into the long sleep after she had taken an overdose of sleeping powder.

TO HOLD MONGOLIA

Chicago, Nov. 22.—A special dispatch to the Chicago Daily News to-day from Canton, China, says: "The governor-general has designated Lieut.-general Chang Wun-pong, commander of the Cantonese forces going to Mongolia to hold the territory for the republic. Red Cross societies are preparing to follow the army."

"Let us fight and end once for all these foreign invasions," is the war cry that has been raised in Canton. An anti-Russian society opened headquarters here to-day."

CANADIAN CADETS START FOR HOME

Australian Press and Public
Says Vancouver Boys Have
Done Their Duty

Auckland, N. Z., Nov. 22.—With the cheering statement from press and public that the Canadian cadets have done their duty and proved themselves a credit to the Dominion of Canada, the cadet corps set sail for home last night.

Auckland extended itself to give the visitors a comfortable and enjoyable stay, and they have been going through a round of receptions and parties since their arrival on Tuesday, all of which were arranged by the popular representative of their native country, Canadian Commissioner Beddoe.

Thousands of cadets were drawn up on the wharf from which the Canadian cadets departed, and many farewells were said.

Cadet Sproule, although not suffering any relapse from his attack of appendicitis, has decided to stay another three weeks in Auckland to recuperate. He will sail for home on the Marana.

PEARCE SUCCEEDS BANTZ.

Washington, Nov. 22.—Secretary Macveagh called to-day for the resignation of Gideon C. Bantz as assistant treasurer of the United States because he is said not to be in sympathy with the administration policy of the secretary of the treasury.

Mr. Bantz will be succeeded by Christian S. Pearce, at present chief of the division of banks, loans and postal savings.

U. S. STEEL CASE

Washington, Nov. 22.—Luther Conant, jr., commissioner of corporations, was the first witness to-day at the examiner's hearing in the dissolution suit of the government against the United States Steel Corporation. The commissioner produced a mass of statistical tables. The first of those presented purported to government stock market quotations on stocks of various companies which have become affiliated with the United States Steel Corporation.

ENGLAND FOR VANDERBILTS

Newport, R. I., Nov. 22.—It was reported here to-day that Oakland Farm, the big estate of Alfred Gwynne Vanderbilt at Portsmouth, seven miles from here, is practically to be abandoned by its owner, and that Mr. and Mrs. Vanderbilt will spend the greater part of their time in England.

CASH REGISTER TRIALS

Cincinnati, Ohio, Nov. 22.—Hearing of the testimony was expected to begin in earnest to-day in the trial of John H. Patterson and twenty-nine other officers and former officers of the National Cash Register Company of Dayton, Ohio, who are charged with having violated the criminal section of the Sherman anti-trust law.

ROBBERY NUMBER FOUR

Chicago, Nov. 22.—Burglars hurled a horseshoe, wrapped in a newspaper through the window of Berg & Co. Jewellers, on Michigan Boulevard early to-day and escaped with jewelry valued at \$2,500. It was the fourth time the establishment has been robbed.

BRITISH PRESS ON NAVAL POLICY

UNIONISTS' COMMENT OPENING OF HOUSE

Manchester Guardian Depre-
cates Extension of War
"Scars" to Canada

London, Nov. 22.—To-day's papers give prominence to the opening of the Canadian parliament.

The Daily Telegraph (Unionist) has a spirited editorial directing attention to the cosmopolitan nature of Canada's population, despite which she wishes, while being mistress of her own house, to remain still a daughter of the Empire. Enjoying the privileges, she is claiming a share of the responsibilities, of the Mother Country. Canada by her declaration of a naval policy, says the Telegraph, has advanced the movement towards Imperial unity.

The Daily Graphic (Unionist) says the emergency of the German navy has completely changed the Dominion's point of view. They previously considered they had done all that was to be expected of them in contributing towards local defence.

The Morning Post (Unionist) is certain that Hon. Louis Coderre's victory shows that Premier Borden has the support of the people in his naval proposals.

The Pall Mall Gazette (Unionist) says the whole movement for Empire defence and union will be ruined if the Canadian ships are absorbed into the home guard and kept clamped in the North Sea and the Mediterranean. The Canadian and the other Dominions are conscious of other clouds no bigger than a man's hand, and will expect their own ships to defend their own interest.

The Manchester Guardian (Liberal) regrets that the Canadian naval contribution should be regarded as an answer to an emergency. It is foolish and wrong, says the Guardian, to extend the scare, with which we are overfed at home, to the Dominion.

POSTPONE EXECUTION

Washington, Nov. 22.—The date of the execution of Floyd Allen and Claude Allen at Richmond, Va., has been postponed from Nov. 22 to December 13.

NEW BELGIAN MINISTER

Washington, Nov. 22.—The appointment of Theodore Marburg of Baltimore as minister to Belgium was announced to-day by the state department. Mr. Marburg will succeed Lars Anderson in the Belgian post. Mr. Anderson having been made ambassador to Japan.

ANNUAL REPORT ON TRUST PROSECUTIONS

Seventy Suits Started in Four
Years Under Administration
of President Taft

Washington, Nov. 22.—A complete resumption of the "trust" prosecution programme of President Taft's administration will be contained in the forthcoming annual report of Attorney-General Wickham. Particular emphasis will be laid upon the anti-trust record of the past four years, during which 70 anti-trust suits were instituted, while the combined total of the administrations of Presidents Harrison, Cleveland, McKinley and Roosevelt was 52.

Of the 70 cases brought by Mr. Wickham, 39 were criminal prosecutions and 31 civil suits.

In the opinion of the attorney-general the efficacy of the Sherman law as a criminal statute depends in a large measure upon the results of several cases now pending. When the verdicts in those cases are rendered the attorney-general believes that a correct estimate of the criminal phase of the law can be made.

PREMIER SCOTT TO PRY THINGS OPEN

RIGID INQUIRY ON FOR SASKATCHEWAN

Sensation at Regina Yesterday
When Charge Was Placed
Against Government

Regina, Sask., Nov. 22.—It was off-day in the legislature last evening after yesterday's somewhat strenuous sittings. The work actually accomplished was of a more formal and routine character, useful but not ornamental or of great public interest.

The solitary sensation of the day was provided by Premier Scott, who gave notice that he would on Monday next move an extremely lengthy resolution for a rigid inquiry by the select standing committee of the House on privileges and elections into the Saskatchewan provincial elections of 1912.

The resolution charges "that the government of the Dominion of Canada in an endeavor to bring about the overthrow of the administration there and now in office in this province, did by unconstitutional and illegal methods participate in the conduct of the campaign in the interests of one of the provincial parties."

The resolution further affirms that the interference of the Dominion government consisted partly in certain statements by ministers of the federal government affecting the constitutional returns of the said government and the government of the province, and partly in the participation by unlawful methods of a large number of the officials of the Dominion government, and particularly of the department of the interior.

The resolution further refers to a speech delivered by Hon. Robert Rogers in Montreal, in which the minister made certain charges as to the voting of aliens and the disfranchisement of properly qualified British electors, and asks that those charges be investigated along with the others.

INFERNAL MACHINES.

Exhibited in Court During Progress of Trial.

Indianapolis, Ind., Nov. 22.—Parts of infernal machines found in the ruins of bridges and buildings in various cities were exhibited at the "dynamite conspiracy" trial to-day.

W. E. Griffith, chief of police of Kansas City, Mo., identified an infernal machine lost by Orrie E. McManigal in a swamp near the Missouri river after McManigal had blown up part of a bridge. Chief Griffith said after the explosion of August 21, 1910, he caused the arrest of W. B. Brown and William J. McCain, local union officials, but the prisoners, after making a statement recorded by stenographers, refused to sign it. The statement, which was not read, was introduced by the government.

Henry W. Leggettner, of Denver, a member of the ironworkers' executive board, when arrested last winter, admitted the union officials expended money without giving an accounting to the members, according to Samuel E. Meyer. Meyer testified he asked Leggettner about the \$1,000 a month which the government charges was used by J. J. McNamara for dynamiting.

"He replied he thought an inner circle of officials in the union controlled the finances," said Mr. Meyer. "He also said President Frank M. Ryan had authority to pay out money when the executive board was not in session and no accounting was given of the \$1,000 a month paid to McNamara."

UNDERPINNING COLLAPSED.

Section of Ten-Storey Building Falls in Portland.

Portland, Ore., Nov. 22.—Temporary underpinning used to support the east wing of the Marquet building, a ten-storey steel structure, which is being remodelled, gave way to-day, a section 25 feet square slipping into the basement. A first collapse, which occurred before daylight, while the building was empty, was followed by a second, just before noon. After the second break, the cavity, which extends from the roof to the street level, appeared as though it had been chiselled out with geometrical precision. No one was hurt by either collapse.

INFORMER DISCHARGED.

New York, Nov. 22.—Sam Scheppees, one of the four informers whose testimony resulted in the conviction of Charles Becker and the four gunmen for the murder of Herman Rosenthal, was discharged from custody to-day. He had been held on a technical charge of vagrancy.

CHURCH DESTROYED.

Lowell, Mass., Nov. 22.—A priest and twenty women were overcome by smoke from a fire that destroyed the interior of St. John Baptist church, a large French Catholic edifice. The financial loss is estimated at \$100,000.

GRAHAME-WHITE TO FLY OVER ATLANTIC

Aviator Completes Plans for Machine of One Thousand Horse Power

London, Nov. 21.—At the close of a flight which Claude Grahame-White took with Totto Kahn as a passenger, the aviator gave out particulars as to his plans to fly across the Atlantic.

"It has been my pet scheme for a long time past," he said, "but now I have completed plans for a machine and commenced to build it. It will be of one thousand horsepower, with four engines and six propellers. Each engine will be of 250 horsepower and they will be so arranged as to be independent of each other; that is to say, if two engines break down, the other two will be quite sufficient to drive the machine. We expect to do the journey from land to land in something between twenty and thirty hours, the machine being built so as to remain in the air thirty hours. All depends on the weather and the course we take. At present we are undecided whether to go by way of the Azores or across to Newfoundland, but I expect the latter route will be chosen.

"The trip is arranged to take place in the summer, although it is just on the cards that we may not make it until the autumn. The weather then will probably be more favorable; but, whenever we start, I am reasonably sure of success."

EMPLOYEES BOARD

Railway Brotherhood Gets From Minister of Labor Inquiry of Limited Scope

Ottawa, Ont., Nov. 22.—The Canadian Brotherhood of Railway Employees has renewed the application to the minister of labor for a board of conciliation, limited in its scope, to inquire into certain differences existing for some time between its members and the C. P. R.

For such limited purposes a board has been established and on the recommendation of the applicants the minister has appointed, Mr. J. A. Macdonald, of Halifax, a member of the board. The company will now be asked to recommend a member and if it refuses, or fails to do so, the minister will appoint one on its own behalf. The minister will also appoint a third member if the other two fail to choose one, and the investigation, limited in scope, will forthwith proceed.

There are grounds for hope that a fair and equitable conclusion will be reported by the board which will prove acceptable to both parties to the dispute.

CHINA DETERMINED TO PROTECT MONGOLIA

Troops Dispatched to Province by Order of Peking Authorities

San Francisco, Cal., Nov. 21.—The Chinese Free Press, a daily newspaper here, is in receipt to-day of several dispatches bearing on the Mongolian situation.

The first from Canton reads: "Wu Han Wen, governor of the province of Kwang Tung, is prepared to dispatch twenty thousand troops to the Mongolian frontier for the protection of the inhabitants. The governor appeals to all Chinese in whatever portion of the world to raise funds for the support of this patriotic cause."

From Peking the Free Press has this: "The Peking government has dispatched 50,000 troops to Mongolia to protect the people who have opposed the convention between Russia and Mongolia in which Russia recognizes Mongolian independence."

"The Chinese government has opened negotiations with the Russian government strongly opposing any Russian interference in Mongolian affairs."

MARKET OFFICER ON FRUIT MIDDLEMAN

Doukhobors Buying Sites for Warehouses in Western Cities

Portage la Prairie, Man., Nov. 22.—Alex. Earle, Western market commissioner of the Ontario Department of Agriculture, is in the city gathering information regarding the fruit trade. The department is endeavoring to get the Eastern producers and the Western consumers closer together in order that the former can get a better price for the fruit and the latter will not have to pay so much.

It is likely that a system of storage houses will be established at principal centres in the Prairie Provinces in which stocks will be kept and sold direct to the retailers or to the consumers at a fixed price. This will eliminate the several middlemen who now seem to get a slice of the difference between one dollar a barrel in the grower's orchard and \$2.50 in the Manitoba home.

The Doukhobor fruitgrowers of British Columbia have already bought sites in several Western cities for warehouses, with the intention of selling their fruit direct to the consumers. It is thought that with their communitarian methods they may capture the trade of the Prairies, as in their case there will be no middlemen to milk both ends.

MEXICAN REBELS DEFEATED.

Leaders and Twelve of Followers Killed.

El Paso, Tex., Nov. 22.—In a battle near Madera, Chihuahua, federal forces under Gen. Jose Blanco yesterday defeated two bands of rebels commanded by Ricardo Terrazas and Juan Ramos, killing twelve rebels, including both leaders, according to reports to-day. Federal losses were not given. The reported killing of General Antonio Rojas by Blanco's rurales is denied in Juarez.

REMOVE EMBARGO.

London, Nov. 21.—An influential deputation waited upon Premier Asquith in the House of Commons this evening on the question of the embargo on store cattle at British ports. The premier promised that in conjunction with the president of the board of agriculture he would consider all the points raised, with a view to the removal of the restrictions at the earliest possible moment.

A member of the deputation afterwards stated that they believed the embargo would be removed within the next month.

BOOM IN DRYDOCKS

Montreal, Que., Nov. 22.—The advent of the floating drydock, Duke of Connaught, at Montreal, and the proposed construction of a government dock at Levis, is coincident with what seems to be a boom in drydocks at Canadian ports generally. It is announced that Norton Griffiths & Co. has made arrangements to acquire the charter of the Imperial Drydock Company, which has under consideration large extensions of its original programme, consisting only of the construction of the drydock at St. John.

WILSON WILE SAY.

Hamilton, Bermuda, Nov. 22.—"All statements about selections for the cabinet may be disregarded until I make the announcement myself," declared President-elect Wilson, when he was told of the reports published in the United States. Governor Wilson said that he had not offered or intended to offer anyone a position in his cabinet at present. It was learned that Wm. J. Bryan has not been invited to Bermuda, and it is said he is not expected here during Mr. Wilson's stay.

A FOOLISH WOMAN.

Salem, Ore., Nov. 22.—Mrs. Charles Wynne, of Klamath Falls, Ore., is pleading with Governor West to accept her life in exchange for the lives of five men condemned and with their sentences affirmed by votes of people of Oregon, to be hanged Friday, December 12. Her second letter was received by the governor to-day. She asserts she is in deadly earnest.

AVIATION CLAIMS TWO AT FRANCE

Laurent Falls When Flying 60 Miles an Hour—Companion Safe—Andre Frey Killed

Rheims, France, Nov. 22.—Two aviators were killed yesterday, Andre Frey at Rheims, and Sub-Lieutenant Laurent at Etampes.

Frey was well-known on both sides of the water. He finished third in the international aviation race in Chicago in September last. Yesterday he was undergoing military training and had just finished a regular practice flight. He stopped his engine at a height of about eight hundred feet and planned down beautifully till within 150 feet of the ground. Then suddenly the right wing of the monoplane shot out and up and the machine dropped to earth. Frey was badly crushed. The cause of the accident is a mystery, as the aeroplane had been thoroughly tested and was apparently in perfect condition.

Lieutenant Laurent and Sapper Chenu were making a flight near Etampes at a speed of 60 miles an hour, when a squall caught the machine as the pilot attempted to make a sharp turn and dashed it to the ground with terrific force. Laurent was killed, but Chenu escaped with slight injury.

FISHERIES BOARD

Advisory Officials For Department With Three Members From British Columbia

Ottawa, Nov. 22.—The fisheries department has passed an order in council authorizing the establishing of a fisheries board of an advisory character.

The method to be followed will be to get in touch with those engaged in different branches of fisheries and the marketing of fish by appointing a fisheries advisory board, to be composed in part of certain officials of the government and in part of persons representing those engaged in the industry. The number of non-official members will be thirteen.

British Columbia will have three representatives who will meet in April and October.

TWO MEN KILLED

Fireman and Railway Employee at Prince Rupert Meet Death in Violent Manner

Prince Rupert, B. C., Nov. 22.—Alfred Thomas was killed yesterday while riding on a motor bus wagon which overturned, crushing him. The machine got beyond control of the driver. Fire Chief McDonald, formerly of Rossland, had his wrist broken, and the motor was badly damaged. Harry Kingston, a G. T. P. employee, was killed to-day by having his legs badly crushed. He had taken shelter under a car while a blast was being fired, when the train started moving.

A WONDERFUL CASE

Three Months in Hospital and Came Out Uncured.

Zam-Buk Cured Him in Few Weeks.

Mr. Fred Mason, the well known upholsterer and mattress manufacturer of St. Andrews, N. B., says:

"I had eczema on my knee, which caused me terrible pain and inconvenience. The sore parts would itch and burn and tingle, and then when rubbed or scratched, would become very painful. When the knee got warm, it burned worse, and the itching and burning and smarting were almost unbearable. I tried various remedies, but got no better, so I decided to go to Montreal and take special treatment. I received treatment at the Montreal General Hospital for thirteen weeks, but at the end of that time I was not cured, and almost gave in. A friend advised me to give Zam-Buk a trial.

"Almost as soon as applied Zam-Buk stopped the itching and the irritation. I persevered with the balm, and it was soon evident that it would do me good. Each day the pain was reduced, the sore spots began to heal, and by the time I had used a few boxes of Zam-Buk I was quite cured.

"Since then Zam-Buk has cured blood-poison in my finger, and at a time when my finger was in such a terrible condition that I feared it would have to be amputated."

For eczema, blood-poisoning, piles, ulcers, sores, abscesses, varicose ulcers, bad leg, cold sores, chapped hands, cuts, burns, bruises and all skin injuries and diseases, Zam-Buk is without equal.

50c box all druggists and stores or post free from Zam-Buk Co., Toronto, for price. Refuse imitations.

APT DESCRIPTION OF SIR RICHARD'S DEMAND

"Strong Wind From the West"
Ruffles Hon. R. L.
Borden

Ottawa, Nov. 21.—Sir Richard McBride's latest naval outbreak at Ottawa has been compared by friendly journals to "a strong wind from the west." The simile is correct. Wind it was, and strong as wind. With characteristic self-complacency the British Columbia premier not merely demanded that Canada should have an army and navy second to none in the world, but undertook to criticize Sir Wilfrid Laurier for not announcing his position with regard to the yet unborn Borden naval policy. Perhaps the B. C. knight is becoming impatient at his own leader's delay and feels that Sir Wilfrid ought to continue to guide Canada's policy.

However, Sir Wilfrid has very clearly defined his policy. His naval propositions were placed before the House and accepted until the Nationalists gained control of the Borden government. If Mr. Borden has anything better to propose it will meet with Sir Wilfrid's support. If his alternative is not as good then it will be opposed in the interests of the country and the Empire. That should be sufficiently clear for even Sir Richard McBride.

For the first time in Canada's history a "Dismissed Government Employees' Aid Association" has been formed at Montreal, and already no less than sixty victims of the Borden guillotine have been found employment. In his Halifax platform Mr. Borden demanded the reform of the Senate and the placing of the outside civil service under the civil service commission. In his Ottawa practice he is trying to reform the Senate by filling it with "discredited politicians" and to reform the civil service by dismissing as many Liberal employees as can be got rid of without disorganizing the service. Perhaps when he gets the civil service packed with his own friends he will remember the Halifax platform. In the meantime the Tory love of patronage is still working overtime.

Naval Policy.

When the first Borden parliament opened there was not a word in the speech from the Throne regarding the navy question. This was not surprising, since the government had nothing to say and wanted nothing to do with it. But the opposition made ample amends for the neglect of the government. Now it is announced by government organs that Mr. Borden's naval proposition—his "emergency" idea, not any permanent policy—will be brought down, with the probability of an appeal to the country before any permanent policy is adopted. It is also stated that Mr. Borden's position will be in accordance with the policy he has adopted on numerous occasions. It can scarcely help being that, since Mr. Borden has twisted through more complicated convolutions on this question than can be easily followed. The only way in which he can dodge all his previous positions is by doing nothing—which has been his programme for over a year.

Highways Bill.

It is intimated that the Highways Aid Bill will be reintroduced at this session. It was thrown out by the senate last year after long debates, the Senate joining with the Liberal opposition in the opinion that the whole bill was a patent device to place patronage and improper influence in the hands of the Dominion government. The opposition demanded that the proposed money should be apportioned amongst the provinces according to population. Finally the government agreed to the bill and they just as obstinately refused any amendment which would prevent the money being used as a bribe to swing by-elections, as was attempted in South Renfrew and confidently trusted that the popularity of the principle would carry it with the public. The Liberals did everything in their power to get the bill through—but did their duty as a loyal opposition by insisting that it be put through in proper shape. There is no doubt that the bill will be as sharply contested this session unless the needed reforms are made.

TRAIN ACCIDENTS.

Moose Jaw, Sask., Nov. 22.—Three men were run over on the Moose Jaw division of the C. P. R. yesterday. Two are dead while the other is dying. One, supposed to be William White, of Regina, was run over near Grand Coulee and died in the hospital at Pense. A. R. Promie, a brakeman, of Moose Jaw, was run down while trying to jump on a moving train at Herbert and died at Pense. The third is supposed to be D. Cook, of Grand Coulee, who stepped in front of a west-bound passenger train a mile west of Regina. Doctors attending him say he cannot live. In each case the victim only was to blame.

Don't Forget to get an estimate from the Standard Furniture Co. when fitting up your new home. It will pay you. 731 Pandora Avenue, just above Douglas street.

ANTI-RACE SUICIDE CRUSADE IN STATES

Thus Far One Hundred and
Forty-Two Persons Are
Under Arrest

Washington, Nov. 21.—One hundred and forty-two persons, including 99 men and 43 women, have been arrested in the government anti-race suicide crusade, according to compilation of figures made to-day in the division of inspection in the post office department. Forty-two business concerns were included in official reports, approximately fifty representatives of the concerns having been arrested. The tabulations show no returns thus far as to the arrest of twenty persons indicted by the federal grand juries in various parts of the country prior to the raids.

The total roundup will exceed probably the total of 173 fixed yesterday by the inspectors, because arrests were made in a few cases in Chicago and in the far west, where the department did not know the cases were ready. In very few instances was there failure to make the arrests determined upon.

DECEITFUL CANADIAN COINS

Seattle Bank Manager Issues Orders Regarding Them.

Seattle, Nov. 21.—Similarity in appearance of the new Canadian \$10 gold pieces and the Canadian penny and the consequent danger of confusion of the two yesterday caused Vice-president J. W. Spangler of the Seattle National Bank to issue specific directions to the men at the windows to look out for the penny. Both coins are nearly alike in appearance, excepting that the penny is a trifle smaller. The obverse and reverse sides of both coins are similar, excepting that the lettering is respectively "Ten Dollars," and "One Cent."

Both coins were minted this year and at the same time. The penny is of unusually light copper color, the bust of King George being shown in relief on both coins, and the gold coin is the first ever turned out by a Canadian mint, paper currency having been the circulation medium above the value of 50 cents. Business men have been warned of an attempted fraud on the part of men in Canada, who have triple-plated the new Canadian penny with gold and have floated the coins in the States as \$10 gold pieces, relying on the hurry of business to successfully conceal the tell-tale lettering. It is stated that a number of such coins have been passed in the Pacific Northwest. It was on account of the danger of fraud and the ease with which it might be committed that local banks have warned employees handling cash to keep a sharp lookout for the belligerent from over the boundary line.

DOES NOT GET PENSION

Woodrow Wilson Will Have to Be Satisfied With Presidency

New York, Nov. 21.—Trustees of the Carnegie Foundation announced yesterday through President Pritchett that Andrew Carnegie had added \$2,000,000 to the endowment fund, making the total of his gift \$14,000,000. It was also announced under the growing restrictions of the uses of the fund the application for a pension by Woodrow Wilson, president-elect of the United States, made when he resigned from Princeton University in 1910, had been refused. It was laid on the table without action. Trustees insisted Wilson's recent political success had nothing to do with the final action on the application, which was considered strictly as a matter of principle. Prof. Dickinson S. Miller of Columbia issued a statement during the day describing the failure to award the pension to Mr. Wilson as a "breach of faith."

HAIR HEALTH

If You Have Scalp or Hair Trouble
Take Advantage of This Offer.

We could not afford to so strongly endorse Rexall (93) Hair Tonic and continue to sell it as we do, if it did not do all we claim it will. Should our enthusiasm carry us away, and Rexall "93" Hair Tonic not give entire satisfaction to the users, they would lose faith in us and our statements, and in consequence our business prestige would suffer.

We assure you that if your hair is beginning to unnaturally fall out or if you have any scalp trouble, Rexall "93" Hair Tonic is without question the best remedy we know of to eradicate dandruff, stimulate hair growth and prevent premature baldness.

Our faith in Rexall "93" Hair Tonic is so strong that we ask you to try it on our positive guarantee that your money will be cheerfully refunded if it does not do as we claim. Two sizes, 50c. and \$1. Sold only at our store—The Rexall Store, D. E. Campbell.

DENNIS TO SENATE.

Toronto, Ont., Nov. 22.—At the annual meeting of the Canadian Press, Ltd., held yesterday, a resolution was passed conveying the congratulations of that body to one of its directors, Mr. William Dennis, of the Halifax Herald, on his appointment to the senate.

RESIGNS HIS CHARGE

Winnipeg, Man., Nov. 22.—Dr. W. P. Morrill, superintendent of the Winnipeg General hospital, has resigned and Dr. Norman B. Taylor, formerly of Hamilton, is acting superintendent. Dr. Morrill came here from Sydenham hospital, Baltimore, Md. He received the appointment last December. No reason has been assigned for the resignation.

NO INDIGESTION, GAS OR A SOUR STOMACH

"Pape's Diapepsin" Makes
Your Stomach Feel Fine in
Five Minutes

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Diapepsin and in five minutes you truly will wonder what became of the indigestion and distress.

Millions of men and women to-day know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin which costs only fifteen cents for a large case at drug stores. It's truly wonderful—it digests food and eats things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

THE HOUSE OPENED.

The speech delivered from the throne yesterday was an unusually verbose document. The paragraphs dealing with the official tour of His Royal Highness across Canada, couched as they were in the inspired language with which the Duke describes his observations, were the most interesting part of the deliverance. Apart from this charming feature, the speech is eloquent because of the paucity of legislation it lays before the members of parliament as the programme of the session. The omissions are significant too, and they tacitly admit either the unwillingness of the Borden government to undertake progressive legislation or an acknowledgement that the naval policy to be submitted will prove the rock in the middle channel of the government course.

The failure to revive the Tariff Commission Bill forces the conclusion that the government must strengthen its hold upon the people of Canada before it can safely undertake tariff legislation. The country is on the qui vive for the first indications of further surrender to the protected interests and the government of Hon. R. L. Borden has no appetite for the sort of rebellion that will arise should higher tariffs be proposed.

The most regrettable feature of the speech was its failure to intimate that a redistribution bill will be brought down. While it is made clear that a bill will be introduced to give the West its equitable representation in the senate, the House of Commons is to be left without its proper proportion of Western members. Obviously Mr. Borden does not want to go to the people upon any question unless it is the old electoral divisions. The voice of the West is unmistakable, and because it threatens the overthrow of the ministry the prairie provinces are to be left without their quota of influence in the next House. An equitable redistribution bill would scarcely have been a matter of contention. The House should at least make such provision that an appeal taken to the Dominion at any time might result in a fair representation of public opinion in the supreme legislative body. It is not unlikely that should the House be threatened with dissolution the Liberals will force a redistribution measure to be brought down. A large number of the most far-sighted supporters of the government would stand by them in such a demand.

DIRECT LEGISLATION.

Two of the three provinces in the Middle West are adopting the principle of direct legislation. The Scott government in Saskatchewan has such a bill up for discussion and the Sifton government in Alberta will introduce a similar bill in the ensuing session of the legislature. In both provinces these measures will be supported by the Conservative opposition members. Such differences of opinion as exist will be respecting the details of the measures and will not affect the principle. So there is no doubt that in six months' time both these provinces will enter into the franchise of direct legislation.

In British Columbia the government is reactionary in the extreme. Legislation is placed upon the statute books by commissioners employed by the government to revise the provincial laws. Changes are introduced by these irresponsible commissioners—whether under or without instructions from the Attorney General—and the "amended" statutes are passed without the legislature having time to analyze them or even look into the nature of the changes thus affected.

In British Columbia amendments are promised to the ante-deluvian laws of the province and these are diligently fought through the committee of the legislature only to be dropped

when this informal body sends its report to the house. Two striking instances stand out in the records of the last session in confirmation of these assertions. The Point Grey municipality was cheated out of an admittedly desirable and necessary amendment empowering the council to grant franchise to motor bus companies. This was done after the municipal council had received the unqualified assurances of the premier that their wishes would be met. It was done after the legislature in committee of the whole had adopted the required amendment. The inference to be drawn from such incidents is unmistakable. A fool can draw it as well as a wise man. The law was also surreptitiously amended exempting church sites from municipal taxation.

While the Middle West is decentralizing the legislative power and extending the democratic rights of the electorate British Columbia—for purposes perfectly obvious—is centralizing the power of the legislature in two men. Not even the forty rubber stamps have any voice in enacting the legislation they are elected to safeguard.

HIGH COST OF LIVING.

An analysis of the causes of the high cost of living has been made recently by the Toronto Board of Trade, which engaged Prof. M. A. Mackenzie, of Toronto university, to conduct an investigation. The report of Prof. Mackenzie is exhaustive and its summarization into a few brief paragraphs confirms what has all along been contended by the low tariff press of Canada and, for that matter, of the world. The report places a large share of responsibility for the steadily increasing cost of the necessities of life on the increased production of gold and the depreciating purchasing power of money as a result. With this assertion few will be inclined to disagree. It explains, as nothing else can do, why foodstuffs have risen in price in free trade countries. It bends the finger of scorn which high tariff advocates point toward Great Britain when defending tariff prices in protected countries. An exact ratio between the decreased purchasing value of gold and the increased cost of foodstuffs could probably be established by any one capable of conscientiously marshalling the data available with respect to the relation of these two things.

It is with the paragraph in Prof. Mackenzie's report which charges the high cost of living in Canada almost directly to the protective tariff system that we are more immediately concerned. That the savant's deductions are correct is evident from the fact that the Tory press of Canada suppressed the paragraph in question, not wishing their readers to become acquainted with the closely reasoned and indisputable conclusions of the expert. The paragraph points out, what the Times has always contended, that the protective tariff fosters trusts, combines and other facilities for cornering the market, forcing down the prices paid to producers and elevating the cost of products to "all the trade will bear." Prof. Mackenzie says:

"One cause operating in Canada as a whole which permits the prices of foodstuffs to be higher in Canadian cities than in London is the tax levied on imports of food from abroad and paid, of course, by the Canadian consumer. This tax was intended to protect the Canadian farmer in times of Canadian scarcity and to be inoperative in times of Canadian plenty, but the development of the packing and canning industries, coupled with the growth of cold storage facilities, has made it possible to-day for a group of men to entirely control the prices at which our farmers must sell certain products—nearly all the possible buyers being in the group—and also to maintain the prices at which the consumer must buy the same products up to the level of the foreign price, plus freight, plus duty. We all know how high are the prices of domestic fruit and vegetables, while imported tropical fruits, upon which there is no duty, are said to be as cheap in Toronto as in any other city outside the tropics. It was never intended that a tax imposed to protect the farmers should be used by dealers to corner domestic produce. If Argentine beef, New Zealand mutton and Australian butter, for example, had free access to Canada, no one could doubt that the prices of these commodities would at once drop to about the London level, and it is pretty certain that the Canadian producer would, on the average, get at least as much as he is getting now."

In view of such a report—a report which says the protective tariff has been prostituted from its conceived purpose and made to inflict injury upon the classes who cannot help themselves in order to enrich those who profit by the monopolies it established—we think the sane reasoner will argue that the best way to remedy existing conditions is to strike at the protective tariff.

That Prof. Mackenzie is himself a Conservative is shown by the last clause of his article, which recommends freer trade between Canada, Australia, New Zealand and the Argentine Republic. An imperial scheme of preferential tariffs is suggested by the illustration. Wise as such an arrangement would be, the same argument applies to foodstuffs obtainable from the United States and to the ad-

vantages which would undoubtedly accrue if the wide market of the 90,000,000 of American people were open to Canadian producers.

Such a report as that of the Toronto Board of Trade should be studied closely and intelligently by every producer and consumer in the Dominion so that no flag-waving campaign can blind the eyes of the electorate to the facts when such issues have to be decided at the polls.

The London Advertiser states that Police Magistrate Judd, of that city, has judicially separated three hundred married couples in less than two years. Comment would be superfluous.

What is said to be the largest apple in the world is on exhibition at Medford, Oregon. It was grown by an orchardist of Samis valley, in that state. The apple weighs 37 ounces and is 19 1/2 inches in circumference.

TWO EARTHQUAKES SHAKE VANCOUVER

SEVERITY GREATER
THAN EVER BEFORE

Billiard Tables Out of Plumb
and Broken China Warn
Mainlanders of Danger

Vancouver, Nov. 22.—Startling citizens into fear of such another frightful disaster as visited San Francisco a few years ago, two brief but pronounced shocks were felt throughout the city and surrounding municipalities last evening. Although very little damage was recorded beyond a quantity of broken china, and a few billiard tables put out of plumb, the quake is stated to be the most severe in the history of Vancouver.

Inquiry at the meteorological observatory last night elicited the information from Mr. Shearman, the government official in charge, that two seismic waves of brief duration had occurred between 4:47 p.m. and 5:15 p.m. Unfortunately the recently purchased seismograph had not been put into commission as the installation process had been delayed, and consequently the length or direction of the quakes were not registered. From reports received by Mr. Shearman, however, and others, it appears that the waves were north and south.

Pretty nearly everybody in Greater Vancouver felt the earth roll. Over in Lynn Valley a child was thrown from a chair by the shake, and down in Eburne graybeards turned from their discourses on the political situation to consider the sudden quake.

They felt it in South Vancouver and in Burnaby too, but Vancouver seemed to have the greater part of the quake to itself. At 4:47 a slight heave was felt. At 5:11 another shake was noticed.

Some queer things happened during both quakes. A Grandview car at the corner of Granville and Robson streets suddenly started forward and was as suddenly stopped. China placed on the shelves of a sample room on the top floor of a downtown warehouse tumbled off and was smashed. An office man occupying a suite on the top floor of a Granville street building felt the huge mass of steel and concrete swing out and then in again.

Gaspipes and water mains were reported by the gas company and the waterworks department to be intact this morning, and no leaks were discovered.

LAW, BUTLER & BAYLY

Real Estate and Insurance, 1009 Government Street.

DAINTY LITTLE BONNETS FOR YOUR BABY

A SPECIAL SALE ON SATURDAY AT 50c EACH

SATURDAY morning should be a busy time in the Millinery Department. There is quite a nice assortment of Bonnets to choose from some are made of silk and others come in a serviceable quality of bearskin. One glance at the display of these dainty bonnets now in the windows will give you a much better idea of their value than anything that we can say here. Your choice at 50c
PLENTY OF FLOWERS AND FOLIAGE left to be sold at, per bunch 25c
FEATHERS IN A VARIETY OF COLORS are to be had at 50c but they are worth considerably more.

What Do You Think of These Sheet and Blanket Bargains?

IT is what you think about them that counts. We consider that they are values that should meet with the approval of the woman who has taken careful notice of qualities and prices and has become an exacting judge of values. Every one of these lines have the reputation of the Spencer store behind them; we depend on their qualities, and the satisfaction they will give you, to strengthen our reputation as a house for good values.

EXCELLENT SHEETS AND QUILTS.

50 PAIRS OF WHITE COTTON SHEETS, full double bed size, and made from a closely woven sheeting, are marked for rapid selling at \$1.35. This is a line that sells regularly at \$1.50, and is worth it. BLEACHED SHEETS, full size, made from a soft spun cotton and a quality that we recommend. Regular \$2.00 value. To-day, . . \$1.65
FLANNELLETTES SHEETS are the ideal sheets for winter use. They are so soft, light, and warm that they cannot help being the favorites. For three-quarter beds, per pair \$1.50; for full sized beds the price is only \$1.85
GRECIAN QUILTS—These are an extra large size and are admirably suited for double beds. They are easy to wash, have an excellent appearance, and will wear to your entire satisfaction. Price each is \$1.75

A SPECIALLY GOOD LINE OF PILLOW CASES

All the regular sizes are to be had. They are made from a good quality of cotton, and are finished with a neat hem. A big bargain at, per dozen \$2.00

HERE'S SOME BLANKET BARGAINS THAT WILL PLEASE YOU
OUR REGULAR \$4.25 blankets, woven from the best of Canadian wools, and free from impurities and finished with a soft, snappy surface, and in the double bed size are to be sold to-day at, per pair, \$3.75

HEAVIER BLANKETS, made of high grade wools and mixed with a little cotton, also our all-Canadian wools, English wools and our famous Scotch wools, are marked at unusually low prices for to-day. Call in and inspect them. That's the only way that you can get a fair idea of the wonderful bargains that they represent. Prices from \$5.00 up to \$16.50

GREY WOOL BLANKETS—Here is a special line of 25 pairs that should sell at a rapid pace. They come in agreeable shades of grey, are closely woven and are a quality that you will approve of. Three-quarter bed size. Per pair \$2.50

HEAVY GREY WOOL BLANKETS—In this lot there are both pure wools and mixed blankets to choose from. Both light and dark greys are to be had and the qualities are such that we strongly recommend them. Prices from \$3.25 a pair up to \$9.50

A Sweet Singing, German, Canary at a Reasonable Price

THE second consignment of these beautiful birds arrived on Wednesday afternoon and are now in excellent condition. You should hear their lively tunes; the hardware department is literally turned into a music hall.

There is no reason why you should fail to get a good songster when you can hear him sing before you take it home. We guarantee satisfaction or we will make an exchange without further cost. Call in and hear them sing. A few left that sell at \$1.95, young birds that promise to be good singers. At \$1.20 there is a choice assortment of female birds, and at \$3.90 there are some fine songsters to choose from.

MUST BE CLEARED OUT BY SATURDAY
NIGHT

Comfort and Good Underwear Are Synonymous

HAVE you ever thought how important it is to choose good underwear? Many people make the mistake in loading themselves with heavy garments as soon as a little cold weather comes along. As a result, quite half their energy is expended in supporting the clothes that are intended to give them warmth and comfort, so that it is no wonder that they feel tired before they have fairly started their day's work. What is wanted, is light, soft, and warm garments next to the skin, and a few well chosen overgarments and you'll be able to enjoy the pleasure of feeling light and being good and warm at the same time. Here are some lines we specially recommend:

ZENITH VESTS AND DRAWERS for women, are to be had in all sizes and are ideal winter garments. Per garment 90c

TURNBULL'S VESTS AND DRAWERS are another reliable brand that will give you entire satisfaction. Per garment 90c

ANOTHER SLENDID LINE is a finer quality of the Turnbull brand of vests and drawers that sells at, per garment \$1.25

DAVID SPENCER LTD.

Just glance over the following list of articles, visit the department and see the fine quality of the china; notice the beautiful colorings and patterns, then you'll be ready to admit that you never saw such bargains in your life.

Butter Dishes, Fern Pots finished with metal insects, Sugar Shakers, Bon-bon Dishes, Hair Receivers, Fruit Dishes and beautiful Cake Plates.

\$1.00 WILL BUY A VERY CHOICE PIECE

A piece that you'll be proud to give a prominent place in your home and will find pleasure in showing it to your friends. You can choose from a great assortment of useful articles, including Biscuit Boxes, Butter Dishes, Cream and Sugar Sets, Chocolate Jugs, Berry Sets, Fruit Bowls, Cake Plates, Honey Pots, Fern Pots with metal insects, Bon-bon Dishes, etc.

MAKE YOUR CHOICE TO-DAY.

The Hair Goods Department

HAS MANY SPECIAL ATTRACTIONS

WE have just received a shipment of the latest and most fashionable hair ornaments and neat bands. There is a huge assortment of styles and colors to choose from, and as the prices start as low as 25c each and range up to \$3.50, there is sure to be a style and a price that will please you.

Hair pads, switches and hair nets are to be had in almost all shades. We shall be pleased to show them to you.

Specially Low Prices on 200 Suit Cases For This Week End

IF you are interested in Suit Cases, the showing of samples from this special lot, now to be seen in the View street window will be full of interest for you and will give you much more information than is possible in this announcement. We consider them to be the best values that your money can buy, but we prefer that you see the goods for yourself and judge them by your own standard of what a Suit Case should be.

24 INCH LEATHERETTE SUIT CASE, finished with a leather handle, steel protected corners, steel frame, strong lock and side clasps. They are well finished on the inside and are big values at . . . \$1.50

ANOTHER GOOD LINE is a 24-inch suit case, similar to the above but much deeper, and has two inside straps. Price only, . . . \$1.65

WALRUS LEATHERETTE SUIT CASES are to be had in either black or tan color. They are here in the 24 and 26 inch sizes and are finished with leather handles, leather corners, brass side clasps and lock, neatly lined inside and have two straps on the inside. A wonderful value at \$1.95

SAME CASE AS ABOVE but fitted with two heavy straps for the outside of the case, will cost you only \$2.50

GRAINED LEATHERETTE, in tan color. This is a 24-inch suit case, neatly lined on the inside and finished with shirt folds and straps. It has a leather handle, protected corners and strong side clasps and lock. It is an extra deep case and a big bargain at \$2.65

GUARANTEED SUIT CASES—This is a special line of plain, tan colored, leatherette, that we guarantee to give you entire satisfaction. Sizes 12 to 14 inch, come at \$2.25; sizes 16 and 18 inch are marked at \$2.50, and size 24 is a fine value at \$2.75

EXTRA DEEP SUIT CASES, made of a good leatherette, in tan color, have a pair of heavy leather outside straps, and the strongest made case on the market at the price. They look like leather and will wear almost as good as the solid leather case. Prices vary according to size. Prices \$4.50, \$4.75, \$5.00 and \$5.50

TAN LEATHER SUIT CASES—These are an exceptionally fine line. They are well made and very highly finished. Have shirt flap and straps on the inside, heavy leather corners, strong lock and side clasps and a strong handle. Size 24 inches. Price \$6.00

THE SAME SUIT CASE AS THE ABOVE, finished with two leather outside straps, come at \$6.50

Confirmation of Analyst's Appointment.—It is understood that as a result of the application to Ottawa for the appointment of City Analyst C. W. Birch as analyst under the Pure Food act the nomination will be made without delay. The mayor has been informed from Ottawa that the matter has been referred to the chief analyst for action. The subject has been dragging along ever since Mr. Birch was appointed by the council early in the year, and neither the city member nor anyone else seemed able to get the necessary approval.

Royal Templars Meet.—The regular monthly meeting of the Royal Templars of Temperance was held on Wednesday evening at the K. of P. hall, W. D. Kinnaird, select councillor, occupying the chair. The special business of the meeting was the consideration of the appointment of an organizer to travel through the province and build up the work of this self benefit and temperance society, forming new councils and lodges, and arranging for the sick and funeral benefit departments. The appointment must be referred to the secretary of the grand lodge at New Westminster for confirmation before it becomes official. The meeting was preceded as usual by the meeting of the Junior Templars, an organization which has now grown to a membership of nearly thirty.

International Geneva Association.—The fifth annual ball of the Victoria branch of the Geneva Association will be held this evening at the Alexandra Club, and all intending to be present may count upon an unusually delightful evening. The committee having charge of the arrangements has left nothing to be wished for. Miss Thain's orchestra will be in attendance, and the programme of music will be most up-to-date, while the supper arrangements will be under the irreproachable management of M. Maffey, chief chef at the Empress, assisted by E. Maffey, his chief assistant at the Empress hotel. The association is a world-wide one, and is every year extending its branches and its influence, and a number of members from the Seattle, Portland, Tacoma, and Vancouver branches are expected this year as the guests of the local organization.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, November 22, 1887.

Mr. Gus Leiser, of Meers, Lenz & Leiser, and wife, arrived by the Sound steamer this morning from a visit to the continental parts of Europe, whither Mr. Leiser had gone to purchase goods for the firm. Both look well and none the worse for their long sea voyage, and trip across the continent.

The representatives of the fire insurance companies of the city met in Mr. Arthur's office this forenoon to consider the propriety of readjusting the tariff of rates in British Columbia.

The Y. M. C. A. will re-open in their rooms, Arcade, this evening. The first snow of the season was observed on the Sooke mountains yesterday. It disappeared shortly after falling.

At the Jewish synagogue to-morrow afternoon there will be celebrated the marriage of Miss Sarah Assenheim, lately arrived from New York. This will be the first Jewish marriage held in the synagogue in this city.

For Sale.—Craigflower Steam Mills, now doing a good business. Capable of making the best article of oatmeal in the province. (Adv.) Shops, studios, offices. A brick building at the S. W. corner of Fort and Broad streets is intended. J. D. Pemberton. (Adv.)

Municipal.—Notice is hereby given that Finlayson's bridge, Government street, will be closed from this date until further notice. James D. Robinson, C. M. C.

Building Permit.—A building permit was granted this morning to H. S. Crotty for a dwelling house on Craigdarroch road, at a cost of \$5,000. This is one of the first houses in the subdivision just open to the public.

Young People's Class.—There will be a meeting this evening at the Epworth League room of the Metropolitan church, of the Young People's Bible class of that church. The proceedings will commence at 8 o'clock, and will be in the form of a social.

Y. M. C. A. Round-up.—There is to be a general round-up of Y. M. C. A. members on Sunday evening at 9 o'clock when a religious meeting will be held and sacred music rendered. It is the desire of the officials to have many members of the association present on this occasion and a hearty invitation is tendered to all.

Late Flowers.—Gifts of flowers this morning had turned the lending department of the Carnegie library into a perfect bower, among which were large roses, pansies and chrysanthemums. It says a great deal for the climate that so late in the year such blooms can be produced in the open air. The flowers came from Victoria West and were grown in private gardens.

Sacred Concert.—Another of the series of Sacred Concerts organized by the Rev. Sidney E. Lindridge, will be held in the Victoria theatre on Sunday evening next at 8.15. Miss Marie Burnett has been engaged to sing, and Benedict Bantley's orchestra will render the musical selections. The subject of Mr. Lindridge's address will be: "The Faith of the Past and of the Future." Full details of programme will be given in to-morrow's issue.

Pound Committee.—A further meeting of the pound committee is being held this afternoon prior to the meeting of the streets committee of the city council. The by-law which was laid over from last council meeting will then be taken up and reconsidered. There are some minor alterations which it is thought should be changed as soon as possible, and probably the by-law will be recommitted to the city solicitor for redrafting.

Nazarene Church.—This church, located on the corner of Flanagan and Chambers streets, was dedicated last Sunday with very interesting services. Evangelistic meetings have been continued throughout the past week with Rev. D. R. Pierce and wife as the evangelists. These services will be continued to-night (Friday) with the closing meetings on Sunday at 10.30 a. m. and 2.30 and 7 p. m. The local workers would gladly have had Mr. and Mrs. Pierce remain for another week had it been possible for them to do so. Both of the evangelists are earnest, interesting preachers. Mrs. Pierce will preach at one of the services on Sunday. The public is heartily invited. Rev. G. S. Hunt is pastor.

King's Daughters.—The Ministering Circle of the King's Daughters will hold a meeting on Monday, November 25, at the King's Daughters' rooms, Courtney street, at 2 p. m., for the purpose of appointing new officers and making plans for the ensuing year. All members are requested to attend.

Church Colors.—The church colors of the newly-formed Congregational Athletic Club will be solid scarlet shirts, white pants, scarlet socks with badge. They will soon be known as the "Scarlet Runners."

St. Andrew's Society.—The St. Andrew's Society will hold their ninth annual dinner on Saturday, November 30, commencing sharp at 8 p. m. in the new and commodious Ritz hotel. The best Scottish talent has been secured for the programme and excellent speeches are promised.

Railwaymen Appreciative.—The members of division 109 of the Street Railwaymen's Association, wish to thank all those ladies and gentlemen who so kindly rendered assistance to their brother conductor, H. Kirkbride, when he met with the accident on Niagara street on Monday the 18th inst.

St. Agnes' Guild Sale.—The regular annual sale of work will be held by St. Agnes' Guild of St. James's church on Tuesday, December 3, during both afternoon and evening. Afternoon tea will be served as usual, and the usual well-filled booths will prove attractions for the purchaser. Christmas gifts of all kinds will be much in evidence, and in the evening a musical programme and games will prove agreeable pastimes for the visitor.

False Alarm for Brigade.—The motor truck and engine apparatus had their first run this morning to a call on account of smoke issuing from the basement of Terry's drug store. Owing to a mistake of a bystander the apparatus made for the corner of View and Blanchard streets, while the chemical engine went straight to the spot. However, there was found to be no cause for alarm. On rounding the corner of Yates and Broad streets returning, a projecting end of the ladder struck a telephone pole, forcing a fireman to jump, but he was not injured.

Extension of Vancouver.—Notice has been given in the B. C. Gazette by H. C. Clarke, acting on behalf of the municipality of the district of South Vancouver, that application will be made to the legislative assembly at its next session for an act authorizing the extension of the corporate limits of the city of Vancouver "by including therein the land within the boundaries of the municipality of the District of South Vancouver, without requiring observance of the provisions of section 11 of the Municipal Incorporation Act, relating to the consent of the owners of more than one-half of the value of the land to be included within the boundaries of the proposed extension."

MAY NOT HAVE LAND.
Angus Clark's Petition for Purchase of Kootenay Lot is Dismissed.

The petition of Angus Clark for the right to purchase lot 9,233, Kootenay district, was dismissed by Mr. Justice Gregory. That the appeal was out of time was urged against the petition, counsel holding that the decision of the district commissioner which was appealed from was on July 3. The district commissioner retained the application and cheque until July 25, when he wrote the petitioner's solicitor that the department had sanctioned the issue of a new record to Watson. Mr. Justice Gregory rules that the latter was the appealable act. He finds that the appeal from it was filed at the Victoria registry office on September 3, over one month after the rendering of the decision and so too late.

LABOR TEMPLE
Annual Meeting Set For Friday—State of Finances is Satisfactory

The ordinary general meeting of the Victoria Labor Temple, Ltd., will be held on Friday at the Labor Hall for the transaction of the customary business, and the reception of the annual statement and balance sheet. Of the income, the sum of \$2,538 has been received from the sale of shares, the total receipts being \$5,463.24. A further payment of \$2,000 has been made on the lot. The value of this lot on Pandora avenue is set at \$37,500, and \$5,500 is due thereon. Capital stock issued represents \$9,330. The balance of assets over liabilities is given as \$23,194.89.

Director, and an auditor have to be elected at the annual meeting.

Do You Want a Good Christmas Suggestion?

Many of your friends undoubtedly own player-pianos. Why not choose a few of the new rolls and make that one of your gifts? To the man or woman who owns a player-piano nothing could be more acceptable, and it is often easy to find out in advance the style of music each prefers or even the names of certain desired selections. In case of duplication we will gladly exchange perfect rolls.

To Your Friends Who Own Graphophones

You can give new selections from the wonderful repertoire of COLUMBIA DOUBLE DISC RECORDS. These records will fit any disc talking machine. Each COLUMBIA DOUBLE DISC contains two complete selections and the range of choice is so wide that you cannot possibly fail to find a large number that will please every taste. These will make very acceptable gifts.

Musical Children Appreciate These

Beautifully finished music rolls and satchels. They hold standard sizes of music and protect it from the weather and from wear and tear, besides making a much more attractive and handy parcel. Children who are taking music lessons, and grown folks, too, who find it necessary to carry music about with them will certainly appreciate one of these conveniences. Our prices run from 75c to \$1.50.

Give a Musical Annual

To any of your young friends. They will be sure to carry pleasure and real benefit. We have a good range now priced at \$1.50 and \$3.00.

Scores of other good Christmas Gifts are to be found in our various departments. Don't fail to visit Canada's Largest Music House when choosing Gifts.

Shipping News from Day to Day

SPUDS TO HOLD ROCK CRUSHER IN POSITION

Lobnitz is Back Ready for Work—Hammer and Cutter Placed Forward

After being absent in Vancouver for some weeks having extensive alterations and repairs made, the Lobnitz rock-crusher was towed back to Victoria yesterday afternoon by the tug Point Ellice. She is now awaiting orders from the public works department to commence work in pounding away the rocks in the harbor. It is expected that she will be moored over one of the treacherous rocks at the entrance to harbor.

While at Vancouver shipyard alterations costing several thousand dollars were carried out. Three spuds have been installed on her to replace the many anchors which formerly held her in position. When working her before the Lobnitz rock-breaker was moored with eight anchors, and as these extended out into the fairway, thereby being a menace to shipping the department decided to equip the craft with spuds. The anchors are of great service when the rock-crusher is working in a big stretch of water, and where the water is rough. But in a harbor like Victoria's the anchors did not give satisfaction, and the change was made.

Another change made on the Lobnitz dredge was the removal of the hammer and cutter from amidships forward. It is expected that this arrangement will also prove more satisfactory than having to work the big 20-ton hammer amidships.

It is not believed that another Lobnitz rock-crusher will be ordered as was originally intended by the Dominion government. While the one at present here has accomplished considerable work, it has not altogether proven satisfactory.

JAPANESE SEALERS

AWARDED \$600,000

Gunners First Claimants, Then Captains and Ruddermen—1,530 Applications

Nearly \$600,000 has been set aside by the Japanese government to compensate the sealers of that land, who were deprived of their occupation by the sealing treaty passed at Washington, D. C. The number of applications for compensation is 1,530, and while the majority of these are bona fide there are many that will be cut out. The amounts to be allotted were decided at a recent conference of the committee of appointment, the gunners being the first claimants, followed by the captains and the ruddermen. Word of the decision of the committee was received here yesterday upon the arrival of the Sado Maru.

It is more than likely that the payment to the sealers will be made at the end of this month or early in December. The Japanese government has been little time in considering the claims of its sealers and are compensating them with large sums, which will partly, if not wholly, make up for the losses they have sustained through the prohibiting of pelagic sealing in the North Pacific for a period of fifteen years.

It is with keen disappointment mixed with a little bitter feeling that the local sealers hear of the payment to the Japanese sealers. The Canadian government has taken no steps to reimburse the Victoria sealers. When the treaty was passed each country was to appoint commissions to consider the claims of their sealers. Japan has fulfilled every clause in the agreement and so has the United States. Nothing is known concerning Russia. Canada has done nothing and the sealers naturally are very much irritated.

WINDJAMMERS BLOWN ABOUT OFF CAPE FOR MANY DAYS

Seattle, Wash., Nov. 22.—Three sailing vessels, the British barque Eudora, Captain Atkinson; the schooner Alice Cook, Captain Burmeister, and the schooner H. D. Bendixen, Captain Thunnell, all of which arrived on the Sound yesterday, reported difficulty entering the Strait of Juan de Fuca because of gales which raged along the north coast last week, and drove the vessels off their course.

The Eudora, 41 days from Honolulu, arrived off Cape Henry 16 days ago, but was driven northward by the storm of November 12, and lost much time beating her way back to the Cape, where she was picked up by a tug.

The Alice Cook, 26 days from Honolulu, was fifty miles off the Cape, when hit by the same storm, and was driven northward, losing her mainsail and foremast and rolling until Captain Burmeister feared the vessel would go.

The Bendixen arrived several days after reaching the Cape by the series of storms.

Who's Your Tailor? Why Cuming, of course. At any time, 727 Yates street, is the greatest place in town for Men's Suits, and this week they're running one of their genuine half-price sales. See page 16.

FIVE STOWAWAYS SMUGGLED ASHORE

ONE CAUGHT REVEALS "STOWAWAY SOCIETY"

Eight Members of Crew of Yokohama Maru Arrested—Ringleaders Also Caught

Four Japanese stowaways who came across the Pacific on the Nippon Yusen Kaisha liner Yokohama Maru, were successful in eluding the watches of the immigration authorities at this port and are now enjoying their freedom in British Columbia. Word was brought to Victoria by the Sado Maru, which came in yesterday from the Orient, to the effect that a Japanese who was in company with the other little brown men and who succeeded in getting ashore but was subsequently captured and deported to his native land, when examined by the authorities in Yokohama revealed a "stowaway society." Arrests were quickly made and the three ringleaders in the society were placed in custody.

It appears that while the Yokohama Maru was at the Japanese port loading for her voyage to this port the five Japanese stowaways on the steamship, Shiba, the captured stowaway, stated that the leaders of the society offered to stow them away on the liner for \$250 each, and when the sums were paid over they were smuggled aboard and secreted in out-of-the-way places. Despite the rigorous search made aboard the vessel here no stowaways were discovered. The men had decided to go to Seattle, but when they saw an excellent chance to escape here they left the Yokohama Maru. It was while loitering about the dock that Shiba was caught. He had lost the other Japanese and did not know which way to go.

Crew Members of Society. Eight members of the crew of the Yokohama Maru were arrested when Shiba made known the existence of the stowaway society. These men are alleged to have shared in the commission. One of the stowaways aboard the steamship was instrumental in getting the stowaways ashore. He watched the movements of the port authorities and when everything was clear he gave the signal and the stowaways quietly slipped over the rail and made their way up town, and it is doubtful to say just where they are at present.

This so-called stowaway society is reported to have existed for several years and many Japanese have been smuggled into Canada and the United States in this manner. A big attempt is being made in Japan to abolish this system of bringing Japanese to North America. The ringleaders and those implicated in the game are being severely punished.

MEN ON SCHOONER SICK FROM THIRST

San Francisco, Nov. 22.—The schooner Hugh Hogan arrived last night, eighteen days from Bandon, with the water butt dryer than the main truck and all hands suffering from thirst. The Hogan reported having experienced the same heavy weather which carried away the canvas of the schooner Annie Larsen.

VERY LITTLE HALIBUT AND HERRING BEING TAKEN NOW

Vancouver, Nov. 22.—For three weeks scarcely a herring has been taken by the fishermen who operate in the Gulf off the Spanish Bank. Night after night they set forth only to be driven to shelter by bad weather and rough seas. The result is a scarcity of herring in Vancouver.

Halibut is also scarce as the steamers are getting practically nothing. A trip of 17 days has been yielding only 35,000 pounds to 50,000 pounds, whereas in good times 150,000 pounds to 200,000 pounds is the average catch for an eleven days trip.

The Flamingo arrived yesterday after a trip of 17 days with only 40,000 pounds.

REPORTS LIGHT ADRIFT

Vancouver, Nov. 22.—Arriving yesterday morning from San Francisco with oil for Port Moody, the steamer Washenaw, Capt. Graham, brings word that the acetylene gas buoys placed off Fox Rock, near Cape Blanco, some six months ago, has either gone adrift or is not in working order.

"We passed within three miles of the rock," said Capt. Graham, "and failed to locate the light. Terrible gales have prevailed recently, and I think that the buoy has broken adrift."

The Washenaw has 13,000 barrels of oil for Port Moody, and proceeded up the inlet at noon. She has already discharged 12,000 barrels at Tacoma. She will get away late to-night for Port Angeles and San Francisco.

The steamer Asuncion is expected in English Bay to-day to pick up a pilot for Powell River, for which port she has a cargo of oil.

ORTERIC CALLS HERE TO TAKE ON CHINESE

Has Record Cargo Aboard for Orient—Tallybus Due in at Midnight

Calling to pick up a number of Chinese the Weir liner Orteric, Captain Howie, arrived in port at noon to-day, and after spending but a few hours here cleared for the Orient. The big steamship, which has aboard the largest cargo she has ever taken out from the Sound to Yokohama and Hongkong, came here from Vancouver, where she completed her cargo by taking on a shipment of fish.

The Orteric had stowed in her hold 12,000 tons of general freight. The bulk of her cargo consists of 6,000 tons of flour, while the remainder includes box shooks, fish, lumber and machinery. The Orteric had a large list of passengers, her saloon being full and there being many Orientals travelling steerage.

Wireless reports received from the Blue Funnel liner Tallybus, Captain Allen, state that the big steamship will not reach William Head until about midnight to-night, and consequently will not come up to the outer docks until early to-morrow morning. The Tallybus was 300 miles from Estevan last night at 8 o'clock. She will only remain in port about two hours, as after her Chinese passengers have disembarked she will head direct for Estevan to discharge her shipment of silk.

Boats in Port. This morning the Maple Leaf liner Bellgrano, Capt. Blacklock, which arrived in port yesterday from New York, shifted from the outer docks to Esquimalt to discharge the shipment of steel plates she has for the West-home Company. She will be here until the middle of next week.

The Japanese liner Sado Maru, Capt. Asakawa, which also arrived yesterday afternoon, is still at the outer docks discharging. The work of putting off the 1,700 tons of cargo was delayed last night owing to the heavy downpour of rain, and the Sado may not get away until early to-morrow morning.

The Lonsdale, Capt. Bate, of the Canadian-Mexican line, will leave here to-night for Vancouver. She has been discharging 600 tons of general freight here which was loaded at Salina Cruz.

INQUIRIES ARE MADE ABOUT TEES' SAFETY

Alberni People Were Anxious C. P. R. Explains Causes of Delay

Many inquiries were made at the C. P. R. offices to-day regarding the whereabouts of the steamer Tees, Capt. Gilliam. A report circulating from Alberni to the effect that the steamer was en route to Victoria. The fact that much heavy weather has prevailed off the coast during the last few days and that the Tees was a considerable time overdue on the trip from here to Alberni caused the people in that town to become anxious for the steamer.

Officials of the C. P. R. stated this morning that so far they had no reason to fear for the Tees. They explained that she did not get away from this port until early on Thursday morning instead of Wednesday night and that she had 50 tons of freight to put off at Murdoch's wharf, at the entrance to the canal, before proceeding to Alberni. The Tees was reported passing Banfield and the officials of the C. P. R. wish to put at rest all fears that the Tees has met with mishap.

Adelaide Again in Service. After lying at the B. C. Marine yards for several days having repairs made to her stern, the C. P. R. steamer Princess Adelaide, Capt. Hunter, is again in service. She is operating on the night run to Vancouver. On Saturday the Adelaide will relieve the Princess Charlotte on the Seattle-Vancouver-Victoria run and on Sunday she will take the place of the Princess Victoria on the triangular service.

LARGEST TOW OF LUMBER TAKEN THROUGH NARROWS

Vancouver, Nov. 22.—The G. T. P. tug Escort arrived yesterday morning with what is said to be the largest tow of lumber ever brought into Burrard Inlet. It amounted to a million feet and was stowed on board the barge Georgian and the bulk North Bend. The Escort yesterday completed a towing trip of 2,500 miles.

When the left Vancouver she had in tow the Georgian, laden with railroad material, and the bulk North Bend, which had 800,000 feet of lumber. At Ocean Falls the Escort picked up a scow with 280,000 feet of lumber and proceeded north. She dropped the Georgian at Prince Rupert and proceeded to Grassy Bay with the lumber. On the return journey the North Bend and Georgian loaded at Ocean Falls and the Escort brought them in here yesterday.

Who's Your Tailor? See page 17.

Connaught Park, Alberni

The Alberni Advocate Says:

Among the recent additions to the suburban subdivisions in the vicinity of Alberni is to be noted that of Connaught Park. This property is located on the upper end of the Creamery Road, and has a very commanding situation on the crest of the first hill that fringes the edge of the great Alberni valley. Now that the intervening timber is being taken down there is a grand view of the city, and the head of the canal from this property and this will improve as the clearing of the valley in front progresses.

It is to be noted with satisfaction that the Connaught subdivision is being sold in half-acre blocks, and that these are well within the reach financially of the man who is looking for a little home within easy distance of Alberni, and who at the same time desires more land than

the absurd 33 feet lots that are on the market, often miles away from the city. The park is very little further from the E. & N. depot than the business centre of the city, and as the Canadian Northern will also run along the base of the same land Connaught Park will have excellent railway facilities in addition to the first-class wagon road that connects it with Alberni.

That the property is being handled by the well known firm of E. V. Winch & Co., of Victoria and Vancouver, is a sufficient guarantee of a square deal to those who do business in the new subdivision. This firm sent in an expert to carefully examine the property before they would undertake the sale of the land, and it was only after this expert had become convinced that the Park possessed the elements of a high-class residential subdivision that the firm took the matter in hand.

BRITISH SHIP ON FIRE AT HALIFAX

Tabaristan From Wilmington Carrying Cotton in Hold Puts in for Safety

Halifax, N. S., Nov. 22.—The British freighter Tabaristan, of the "Strick" line, put into this port yesterday morning with fire in her hold.

The vessel left Wilmington, Delaware, with a full cargo of cotton for Liverpool, and after four days out from the American port it was discovered that the cotton was afire, compelling the steamer to make for Halifax, the nearest port.

The Tabaristan dropped anchor in mid-stream on her arrival while her crew were still working to put out the blaze. Her captain reported the blaze under control.

'FRISCO'S CHARTERS.

San Francisco, Nov. 22.—The British steamer Lonsdale, which arrived at Victoria Tuesday from Salina Cruz, has been chartered by Balfour, Guthrie & Co., for grain from Puget Sound to Japan. This makes the third steamer chartered for this business from Puget Sound. Two more are under charter to land at Portland.

The schooner Taurus, fifteen days out from Hilo, has been chartered by the Moha Commercial Company for lumber from Puget Sound to Talait at \$25, 6d.

The schooner Mabel Gale here in port has been chartered by the Compagnie de Buleo for lumber from Puget Sound to Santa Rosa.

The German ship Laebek has been chartered by Neame & Co. for lumber from Puget Sound to the United Kingdom at \$55, for one port and \$75, 6d., for two ports. She will come north in ballast from Santa Rosa.

The Norwegian steamer Thode Fagelund has been chartered by W. R. Grace & Co. for a period of five years. She is now on the Atlantic coast, and will come around to Antofagasta and thence to this port and Puget Sound.

The British steamer Queen Elizabeth, which arrived from Nanaimo to-day, after discharging will return to Puget Sound to load lumber for Sydney under charter to the American Trading Company.

UMATILLA IN AFTER ROUGH TRIP; LIGHT PASSENGER LIST

After a rough trip up the coast from San Francisco and with the lightest passenger list of the year, the Pacific Coast steamer Umatilla, Capt. Reilly, arrived in port at 7 o'clock this morning. Several bad southeast gales were weathered by the steamer and the gigantic seas encountered prevented her from reaching port on time. All told there were but fifty passengers, including the following who disembarked at this port: A. T. Carne, Miss E. Cranfield, J. Cranfield, W. E. Grant, Miss E. Howe, Miss W. Howe, Mrs. W. Howe, Mr. and Mrs. J. A. Ewing, Mr. and Mrs. R. G. Maxwell. The Umatilla discharges 218 tons of cargo here.

SELMA IS LABELLED.

Vancouver, Nov. 22.—Claiming that the steamer Selma, Captain Sam Robinson, of the All-Red S. S. Co., ran down and sank a fishing boat off Grief Point on November 15, J. Nakajima, a Japanese, took action on behalf of his partners and obtained a writ against the Selma, which was served last night at 5.30 o'clock at the Johnson dock by Deputy Marshal Tom Shiley. The plaster was affixed to the mast of the Selma in the time-honored fashion and this morning the owners of the steamer put up bonds which obtained her temporary release.

This morning the G. T. P. steamer Prince Rupert, Captain Johnson, left Prince Rupert for Victoria. She arrived here on Sunday morning.

The C. P. R. steamer Princess Ena is now at the outer docks loading cargo for the Nippon liner Sado Maru for Vancouver.

ALL the newest flights of fancy in fashion are studied by the Semi-ready designers.

TO ARRAIGN NEWETT.

Marquette, Mich., Nov. 22.—If convicted on the charge of criminal libel preferred by Col. Roosevelt, Editor George A. Newett, of Ishpeming, can be punished only by a fine of \$100 or 90 days in jail. It was learned to-day that criminal libel is not a misdemeanor, but a violation of an ordinance, and that a case of the kind can be tried only in a justice court. The action holding Mr. Newett to a higher court, therefore, was quashed to-day, and he will be arraigned November 23 in a local justice court. The criminal case is distinct from Col. Roosevelt's \$10,000 damage suit against Mr. Newett for libel.

HOW CAN YOU HESITATE?

When everything is so easy for you at this big store. Here you have a display of home furnishings that is unequalled in the West. You have the HIGHEST QUALITY goods to select from. You have the most reasonable prices marked plainly on each article. You have the best arrangements it is possible to find anywhere. You have experienced salespeople to wait on you and give you their valued assistance. You have everything that can be desired and always bear in mind, you are dealing with the house that has been doing business with the Victoria public and vicinity for over half a century. You are sure of a square deal for a round dollar at this the largest home-furnishing store in the west. How can you hesitate?

BROWN DAISY FLOOR MOPS ARRIVED, THE VERY LATEST, ABSOLUTELY NEW, SANITARY, ANTISEPTIC AND ABSORBING, CLEANS AND POLISHES

SEE THESE IN OUR GOVERNMENT STREET WINDOWS TO-MORROW

Designed for Polished, Painted and Varnished Floors. Equally Good for Mattings and Linoleum. Brown Daisy Mops and Dusters Do Not Scatter Dust, But Collect and Absorb It. Ask to See the Brown Daisy Handy Duster and the Brown Daisy Absorbing Dust Cloths.

These Absorbing Mops, Floor Brushes and Dusters are the best in the world and deserve a place in every home in civilization. They are the cleanest, neatest, most durable and most economical labor saving and health building DUST REMOVERS ever invented for home or office use. They are made of soft BROWN yarns, chemically treated with colorless liquid which renders them antiseptic and gives them the properties of absorbing dust and lint from all surfaces to which they are applied. They pick up the dust and carry it away. It won't drop off, or shake out, or scatter. THEY DON'T DISCOLOR THE WHITEST SURFACES. THEY ARE SANITARY.

FURNITURE BRUSHES \$1.25 and 65c each

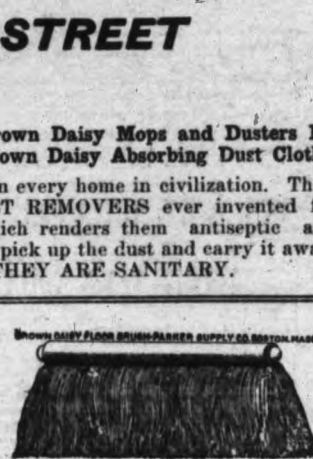

FLOOR MOPS 75c each

WALL DUSTERS \$1.25 each

FLOOR MOP
\$1.00

This is especially designed for cleaning and polishing hardwood floors, linoleums, oil cloths, matting and painted and varnished floors. It picks up every particle of dust and lint and polishes the floor as it goes along. You simply brush the floor lightly. No work at all.

PRICE, \$1.00 EACH

FLOOR BRUSH, \$2.50 AND \$2.00

Head and handles are of birch, artistically turned and highly polished. Ends are protected by rubber tips. Covers more surface than any other style of floor brush. Has two exclusive features. The yarn is riveted between two strips of steel and cannot possibly come apart or work out. By removing screws at either end it readily comes apart for washing and as easily returned to its place. Only \$2.50 and \$2.00.

DUST CLOTH, 35c

The chief advantage of this one over all other kinds of absorbing so called "Dustless" Dusters, is that Brown Daisy will not crock stain or discolor clothing or wall-papers, or pictures, or dainty bedroom furniture, or anything to which it is applied. It takes away the dirt and leaves no other evidence of its having been around except that it polishes shiny surfaces. Price 35c.

HANDY MOP, 35c

This is a very handy article to have around the house. It's just the thing for dusting bric-a-brac, pictures, picture molding, shelves, walls, pianos, desks, bookcases and heavy draperies, unequalled for automobiles. Only 35c each.

SPORTING NEWS

RING VETERAN STAMPS JOE

BAYLEY ANOTHER AD. WOLGAST

Aggressive Tactics of Canada's Lightweight Champion, Make Great Impression on Charlie Gleason—Title Holder Needs a Little More Schooling to Put Finish on His Work

"All that boy needs is a little schooling in the finer stuff, and he will be a world beater," was the opinion of Charlie Gleason, a former star among the welter of the other side, as he witnessed Joe Bayley go through his paces with Cyclone Scott at the J. B. A. gymnasium yesterday afternoon. Gleason was one of the good-sized crowd of spectators who were on hand, and he was more than tickled at the splendid showing of the Canadian lightweight champion.

Another Wolgast. "Bayley is another Wolgast, of the same sturdy, rugged and lionhearted class, that the Michigan boy belongs to, and he has everything that makes a champion," continued Gleason. "He lacks the finish of a fighter like Willie Ritchie or other lightweight stars, but he is sure there with the punch, and can stand the punishment. Give Bayley another year or two to learn the finer side of the game, and I really think he will top the whole bunch of 'em."

Champion Over-Weight.

Though Scott had about twenty pounds on Bayley and a big advantage in reach, the pair milled matters pretty lively. The champion appeared in perfect condition, and took on Al Hardwick, after Scott had retired to the cooling comfort of a shower. For another three rounds he exchanged love taps with the James Bays wrestling star and finished up by skipping the rope. Bayley jumped on the scales after the workout, and just tipped the beam at 124 pounds. He will devote another week or so to better his wind, and will then start in to get up some speed.

SWEEPING RAID BY COAST CLUBS

ROBS N. H. A. OF ALL HOCKEY STARS

Cream of Professional Puck Chasers Will Be Seen on the P. C. H. A. Teams This Winter—Pitre, Laviolette, Oatman and Producers Have Accepted Terms

One of the greatest deals for hockey players has just been completed in the announcement this morning by officers of the Pacific Coast Hockey League that Didier Pitre, Jack Laviolette, Goldie Producers and Ed. Oatman, stars of the first water in the East, have accepted the terms of the Coast clubs, and will leave in a few days for Vancouver. Negotiations are now under way to secure Jack Macdonald of Quebec, Jack Darragh and Skene Roman of Ottawa, and their acceptance of the Coast terms is expected daily. Fred Taylor and Carl Kendall leave Ottawa to-morrow for the Coast and it is just possible that the other Ottawa pair will make up the quartette of Ottawa boys for the Coast league. Jimmy Gardner will leave on Sunday, accompanied by Pitre and Laviolette, while Oatman and Producers, will also arrive in company with Gardner.

"Peg Players Must Report. Wires were dispatched to Winnipeg last night, ordering Tommy Dunderdale and Dubbie Kerr to report at once

and the duo are expected in Victoria next week. Their "raid" of the Coast clubs makes several changes necessary in the line-up of the Coast clubs, but the P. C. H. A. fans are assured of the greatest galaxy of hockey stars ever gathered together. The Patrick boys have simply gone out and cornered the hockey market and the N. H. A. is expected to come through with the olive branch at once, as a result of the activity of the Coast promoters.

N. H. A. Split Expected. A meeting of the National Hockey Association will be held in Toronto to-morrow night, when the migration of the hockey stars to the Coast will be taken up. It is expected that important developments will result from the N. H. A. gathering. The Ottawa club is especially sore on Lichtenheln for his refusal to give up Hyland and Johnson, and a "blow-up" is not unexpected by those on the inside.

Lester Patrick has called a practice of the pro's for to-night, and next week afternoon workouts will be in order.

CANADIAN HORSES PROVED BIG MONEY MAKERS ON GRAND CIRCUIT

Canadian horses had a great season on the Grand Circuit this year. The two biggest money winners on the circuit were Joe Patchen II. and Knight Onwards, the former clearing nearly \$25,000. The Eel, whose death occurred at Columbus, was also a good winner, and had the Grey Ghost lived a few weeks longer it is certain that his winnings would have been double and treble what they were. Such horses as Johnny Hube, Hal B. Jun., and Hal H. cleaned up a bunch of money on the Canadian Circuit beside their Grand Circuit winnings.

The Canadian money winning pacers, the names of their sires and the amount each won on the Grand Circuit, are as follows:

Joe Patchen II., 2.03 1/4, by Joe Patchen, 2.01 3/4	\$23,050
Knight Onwards, 2.05 1/4, by Twelfth Night	10,485
Grand Opera, 2.12 3/4, by Calus Forrester, 2.11 1/4	5,390
The Eel, 2.02 1/4, by Gamboller, 2.22 1/4	2,600
Earl, Jun., 2.01 1/4, by The Earl, 2.14 1/4	1,475
Vernon McKinney, 2.01 1/4, by Guy McKinney	1,239
Fern Hal, 2.06 1/4, by Gold Hal, 2.11 1/4	1,065
Hal B. Jun., 2.03, by Hal B., 2.04 1/4	250
Johnny Hube, 2.10 1/4, by Ed. Anpan, 2.15 1/4	250
Bushnell King, 2.10 1/4, by Norval King	250
Major Brino, 2.05 1/4, by Wildbrino, 2.19 1/4	250
Merry Widow, 2.03 1/4, by Red Pac, 2.16 1/4	100
Hal H., 2.15 1/4, by Hal B., 2.04 1/4	100
Hal D., 2.11 1/4, by Hal B., 2.04 1/4	40

WINCHESTER

LOOK FOR THE RED W

Rifle and Pistol Cartridges

Winchester cartridges adapted to Winchester rifles are made so as to get the best possible results out of them. As the same equipment, organization and system are employed in making all Winchester cartridges, the natural consequence is that Winchester cartridges give the best results in all firearms. Winchester cartridges are made in calibers and sizes for all rifles, revolvers and pistols. Be sure to ask for the Red W Brand.

COMING TO COAST

GOLDIE PRODUCERS

Quebec defence star, who will be seen on New Westminster team this year.

RITCHIE IN SHAPE

San Francisco, Nov. 22.—Willie Ritchie, who will fight Ad Wolgast 30 rounds here Thanksgiving Day for the lightweight championship, stepped on the scales yesterday before a delegation of sportmen and relieved their doubts about his ability to make the ringside weight, by tipping the beam at 135. As the fight is still a week away it is conceded that he will have no difficulty in making the rigid conditions which Wolgast imposed.

Ritchie's daily training stunts include road work in the morning and boxing and gym work in the afternoon. The champion confined himself to four rounds of rough milling with one of his sparring partners and put in an hour in the gymnasium. He planned little work to-day but will indulge in much boxing to-morrow and Sunday.

CHAMPION SKATERS IN GRAND MARCH

Not only will the world's champion skaters, Mrs. Isabelle Butler and Mr. Norval Bappte, appear in their regular fancy trick and speed skating act at the Arena every night next week, but on Thursday night they will lead the grand march at the fancy dress carnival. They will go through a number of fancy movements, at the head of those dressed in costume, and their act will be an additional incentive for lovers of skating to attend the carnival.

WEEK-END CARD FOR SOCCER CLUBS

Senior.
Navy-Esquimalt vs. J. B. A. A. Transfer Field. Referee, W. Wilson.
Wests vs. Thistles, Royal Athletic park. Referee, J. R. Allen.

Newitt, Mat Scott, Gibson and P. T. Gallher; halves, Newcombe, Hill and Shires; forwards, B. Scott, E. Tuck, J. Houston, C. Brown, A. Milligan, J. Newmarsh, Denniston, Monteth, Chalk and Hay-Currie.

ARCADES AGAIN WIN.

Brunswicks Drop a Pair After Getting Away to a Good Start.

Arcades wound up strong in their match with the Brunswicks last night, winning the two final games, after dropping the first. Tait, with 180, was high. The score:

	Brunswicks.		Arcades.
Thomas	118	161	128
Tait	180	145	116
Fortin	122	146	128
	420	392	382
Maxwell	128	157	175
Huxtable	128	157	161
Paint	146	173	325
	402	486	471

SATISFACTION TO EVERY CUSTOMER ACCOUNTS FOR OUR REMARKABLE GROWTH

Our recent removal into our big and handsome new store, which gives us more than twice the floor space of our old quarters; the increasing of our stock; the increasing of our large and efficient sales staff, and the addition of a complete Boys' Department all prove beyond a doubt that our business is growing very rapidly. Look further and you will see the rea-

son for this tremendous growth—it will become apparent to you that we must give such satisfaction with every purchase as to cause the customer to join the ranks of our regulars. Why not prove this statement regarding satisfaction, to-morrow, by taking advantage of our Saturday specials?

Men's Overcoat Special For Saturday

Just unloaded these Overcoats from the dray and put them in the display cases this week. They have the regular shoulder, strap seam down centre of arm, medium width lapels, smart cuff on sleeve, length of coat 44, 46 and 48 ins., three buttons, regular pockets, No. 1 quality of satin lining across back and three-fourths down the sides of coat, balance of inside of coat plaid, self-lined. Different shades of grey and brown. Special value for Saturday at \$25. Come in and slip them on. You will appreciate their smartness. Remember, we also have a complete range of Overcoats in all shades and models at

\$15, \$18, \$20 and \$22.50

HATS

Our Headwear is noticeable for correctness of style. Pass your hand over the surface of one of our Hats, and you will recognize at once its rich quality. Fat or lean, tall or short, we have a Fall Hat that will especially become you. Get it Saturday. Special values in smart blocks at

\$3.00, \$3.50, \$4.00 and \$5.00

Men's Suit Special For Saturday

We have the same style suit in both Sein-Bloch and "Proper Clothes." Medium length, soft roll lapels, slightly form fitting, high-cut vest, medium peg trousers that can be finished plain at bottom or with two inch cuff, hand-felled button holes, fronts have No. 1 quality of hair cloth, which are guaranteed to keep in shape, even though you get caught in a downpour of rain. This style comes in blue serges, blue, grey and brown mixed tweeds. A strong value for Saturday at \$30. We want you to inspect this suit to-morrow. It certainly looks good, and is just as good as it looks. We also have our usual strong suit values at

\$15, \$20 and \$25

"You'll Like Our Clothes"—Rgd.

The New Semi-Regatta Shirt; A New Arrow Collar and Swell New Dollar Neckwear

Will be displayed in our large centre show window for Saturday. These Shirts are very new, and are worn exclusively in the best style centres. They have a short, stiff bosom, and come in neat black and white and blue and white stripes.

SPECIAL VALUE \$1.50

You'll find our new Collar, which has just arrived from the manufacturer, to fit perfectly on this new shirt. Suppose you try one.

20¢ or 3 for 50¢

Seven new shades in Neckwear in the one shape. 1 1/2 inches in width. Cor-

rect for close-fitting collars. Will be shown by us on

SATURDAY AT \$1.00 EACH

These Ties have just arrived, and are different to any you have ever seen. Other new styles of Neckwear exclusive with us. ONLY 50¢.

SOME GOOD THINGS IN STORE FOR THE BOYS ON SATURDAY

OVERCOATS

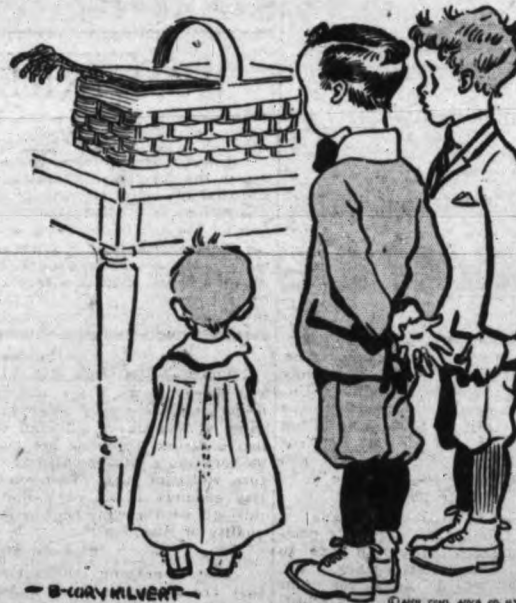

For the boy who wants a dressy yet comfortable Overcoat for winter wear, we are featuring for Saturday several smart lines, including one which is belted all the way around with 3-inch belt, fancy leather buttons, buttons up to the neck. Lined with red flannel and other soft, warm materials. Soft tweeds, in blues, greys and browns.

\$4.50, \$6 and \$6.75

For ages 7 to 16 we have a splendid line of Overcoats, including motor collars, two-way collars. Made to keep the boy warm, first of all, but style and service have not been neglected.

\$7.50, \$8.50, \$10, \$12 and \$15

Do you know that we have the most complete Furnishings Department for boys in Victoria? Whether the boy wants Neckwear, Shirts, Stockings, Gloves, Sweaters, Underwear, Hats or Caps, it means entire satisfaction to purchase from us. Make up your mind to visit this department Saturday.

SUITS

Boys of from 7 to 16 years of age will find with us a smart line of all-wool, well-tailored, skillfully designed Suits. Suitable for Sunday wear, and so durable that no service is too severe for them.

\$7.50, \$8.50 \$10, \$12 and \$15

For school wear, the boy can't wear a more serviceable Suit than one of our corduroys in browns and fawns. Norfolk styles, bloomer trousers, strongly sewn, no danger of ripping at seams.

Special For Saturday \$5

Bring the boy in and have him try on one of these Suits.

TO-MORROW'S SOCCER GAMES.

What may be the deciding games in the senior and intermediate soccer divisions are on the card for to-morrow's City League fixtures. The Senior Victoria West even and the Thistles hook up at the Royal Athletic park in what is looked upon as the most important game of the year. Should the Wests emerge victorious the senior title will be theirs beyond a doubt. At North Ward park the Wests second team will clash with the Wards. A win for either club practically means the champion-

ship, these teams now being tied for the leadership of the Intermediate league. At last night's meeting of the Soccer Association the action of several of the league referees came in for considerable criticism and a motion was passed that referees in the future must comply with the rules governing the game. Sons of England will play the Garrison Club a friendly game on the West park grounds to-morrow afternoon. The line-ups of the different clubs follow:

Who's Your Tailor? See page 11.

JOHNNY TAUSCHER A BENEDICT

The County Clerk issued a marriage license this morning to John Tauscher and Ellen Cavanaugh. Tauscher is a local boy, and is well known in professional baseball circles. In 1910 he played with the Spokane team in the Northwest League, and the following year was with both Victoria and Spokane. This season he has been ill a great deal of the time and has not taken part in many games until the latter part of the year. He plays both infield and outfield.

WHY DON'T YOU?

SMOKE MY CHOICE CIGARS

MADE BY F. H. SCHNOTER VICTORIA, B. C.

WHY DON'T YOU BUY A LOT IN "COLLINGWOOD"

"I believe you're right: since I have seen the place for myself I do think it makes a good investment, and I'll take the two lots we spoke of."

There's the statement of a Doubting Thomas who bought a day or two ago after refusing to believe that our arguments in favor of "COLLINGWOOD" were sound. This man was one of the many who "lost a fortune" by not getting in at the right time in Winnipeg and Saskatoon. After much persuasion he consented to look at "COLLINGWOOD." Note the result.

"COLLINGWOOD" is good for either one of two desirable objects: It will provide you and your family with the site for one of the prettiest, most charming homes in Canada—it will give you an easy-payment investment, on very easy terms, that will certainly net you first class profits in a reasonable time.

There are at Least Eleven Reasons —Read Them—

Property faces new station of Saanich Electric line, which is to be in operation about the 20th of next month.

Fronts on Carey Road, with gentle slope, commanding excellent view.

Glanford avenue, marking one of Victoria's finest residential districts, long since laid out, crosses rear of our property.

Victoria and Sidney Railroad line crosses Glanford avenue near "Collingwood."

Adjoining subdivision of "Colquitz Heights" was sold out some time ago at similar prices.

Many re-sales at a marked advance have already been made in "Colquitz Heights." Carey Road is an important main trunk artery.

"Collingwood" lots are 50x135 each, and delightfully laid out. Almost all of the property is under cultivation.

The property includes a fine orchard and several groves of shade trees.

The soil is rich, deep and level, free from rock and naturally drained.

The place is ideal for homes, with lovely gardens and lawns.

FROM \$350 PER LOT UP

Is all you have to pay for "Collingwood" property now. Later on the prices will go beyond that limit far and away.

The Present Terms Are Only \$50 Down and \$50 Quarterly

CORNISHMEN HAVE FORMED ASSOCIATION

Enthusiastic Meeting of Local Men From Historic County—Officers Elected

At the close of the Cornish choir practice last Wednesday evening, a meeting was held in the parlor of the Centennial Methodist church, for the purpose of forming a Cornish Association. Evidence of the keen interest taken in the movement was manifested by the large number who turned out notwithstanding the inclemency of the weather. F. Davey, M. P. P., was voted to the chair. In a few remarks appropriate to the occasion he spoke of the great pleasure afforded him at being present, and expressed his surprise at seeing so many Cornishmen gathered together. He also referred to memories which were awakened at hearing once more a Cornish male choir. After the chairman's address the meeting settled down to business and it was apparent that those present were unanimous as to the desirability of forming such an organization. The following were elected officers: F. Davey, M. P. P., honorary president; W. H. Parsons, first honorary vice-president; W. H. Knight, second honorary vice-president; F. Corin, president; H. Roberts, correspondence and financial secretary; F. W. Davey, treasurer. Committees were also elected to draw up a constitution for the association, also to look into the matter of renting a suitable hall for the carrying on of the work and development of the association. If one may judge from the interest taken in the last meeting the Cornish Association promises to be a very prominent and interesting factor in the lives of local Cornishmen. Each of those present last Wednesday evening signified their intention of bringing a friend along with them to the next meeting. The meeting was brought to a close by the singing of the old and familiar stanza "Trelawny." The next meeting is called for December 4, announcement of which will appear in due course in the advertising columns of the Times.

SUCCESSFUL BAZAAR OF EQUALITY LEAGUE

Very Profitable Event Was Held Yesterday Afternoon—Interesting Addresses

A most successful bazaar, which has added over \$32 to the fund of the Political Equality League, under whose auspices it was held, was given yesterday at the residence of Mr. and Mrs. Pethick, 75 Heywood avenue, the front of which was appropriately decorated with streamers of purple, green and white bunting. Mrs. W. J. Roper, in a few gracious words, officially opened the bazaar at 2.30, saying that she admired the usefulness of the women who were giving up their time to promoting interest in a cause so generally disapproved, and voicing her sincere sympathy with the work. In concluding, she wished the sale every success and introduced Mrs. Birch, who had just returned from an extended trip to England, where she had taken a keen and active interest in looking into the conditions controlling women workers.

Mrs. Birch, who spoke very earnestly, referred to the powerful lever which men, as laborers, could wield to their own advantage through their labor unions; women, on the other hand, had not formed themselves into labor unions, and not possessing the vote, would find even such organizations ineffective. The speaker then described in outline some of the existing evils where women are concerned in the labor market, and pointed to the need of sympathetic legislation for both women and children, which would be best obtained through the granting of woman franchise.

In the evening Rev. W. Baugh Allan pointed to the benefits to be derived from an educational campaign. When men had become better educated, and had come to realize the part they should play in the government, they had demanded the vote. Women would do the same when they realized how they were being handicapped in the home and in the labor market by the lack of it. The women should be impressed with the evils which their sex suffered from. Those who were happy and had leisure were the ones who should take up the cudgels on behalf of their less fortunate sisters, and it was one of the beautiful things in the movement that this had been characteristic of the women who were giving their time to it. It was only sympathy with selfishness which made critics ask why women who had everything they themselves wished for should take so much trouble to upset the present order. A lampoonist and caricaturist might do much in pointing out the absurdities of the anti-arguments. Logically there was nothing to stand in the way. Referring to Ella Wheeler Wilcox's poem, "The Tides," the speaker said that the term "New Woman" had been used, and was still being used with derision, but even Christianity itself had been derided. In conclusion Rev. Mr. Allan returned to his original argument—that education was the basis of the desired change.

The various reception rooms were thrown open during the day, being occupied by booths containing tempting articles of fancy work or edibles. Mrs. Rosentrater took charge of the tea and light refreshments in most capable

matiner, and her department was undoubtedly one of the most popular at the bazaar. Mrs. Carr and Miss Leggett undertook the management of a very attractively arranged fancy table, while nearby little Christie Temple directed the sales of fragrant lavender bags and ornaments. Another little saleswoman, Miss Nora Denovan, had a most successful candy and flower counter, which turned a goodly sum into the fund, and the Misses Dora Christopher and Edith Jubb managed the sales at an interesting table of books and pictures. Miss Vital's counter of home produce was also much sought, and home-made jams, jellies and country eggs proved popular attractions. Until a late hour Mr. Daniel was kept busy with his occupation of palming, and proved so

successful that it is to be hoped he will some time give a special session.

Other attractions were to be found in the programme which was given during the afternoon and evening, among those who assisted being Mrs. Baer, who presided at the piano, and Mrs. Michael Hallward, whose spirited recital of "Jennie MacNeill's Ride" will live long with those who heard. In the two encores which were given, this finished artist gave a further display of her versatility and mastery of gesture, these being "Nini, Ninette, Ninon!" and the ever popular "Story of the Fan."

Minister—Young man, do you know how to dance?
Young Man—Well, parson, I know the holds, but I don't know the steps.

ADVERTISE IN THE TIMES

TELLS HER STORY AT AWARD COURT

MRS. WENGER IS TOO WEAK TO MOVE

She Gives Evidence Regarding Automobile Accident at a Special Sitting

Too weak to attend at the police court, Mrs. Freda Wenger, at a special sitting before Magistrate Jay in her ward at St. Joseph's Hospital late yesterday afternoon, told her story of the accident in which she and her infant were struck by an automobile driven by Ray Finlay near the fountain on November 15.

The injured woman, swathed in a heavy woollen wrap, sat propped up in a large armchair as she unfolded the various details of the accident and incidents which led up to it. Close at hand, her husband, Frederick Wenger, stood, holding the little child which had had such a narrow escape from death.

Mrs. Wenger's story, given under oath and punctuated at intervals by questions from Crown Attorney C. L. Harrison and F. A. McDiarmid, counsel for Ray Finlay, driver of the automobile, was as follows:

"I got off a Douglas street car at Bay and Government streets and went to the Bank of Commerce at about 3 p.m. I don't know what street the bank is on. Then I went to a store nearby. Then I crossed the street to where the fountain is." Here she indicated the position on a diagram of the locality prepared by Deputy Police Chief Palmer.

"I went across the street to get my car, a Douglas car. I was standing on the sidewalk quite close to the car track." (She pointed out a distance of about 4 or 5 feet as the space between her and the tracks.) "My car was coming from the town towards my home. When the car was near, the automobile was coming the same way. I don't know whether the automobile came round a corner. I think the street car was ahead."

"I had been facing the car. The side (of the street) I came from was torn up; men had been digging there. I saw the automobile but couldn't get away. It was probably as far away as the width of this room (about 12 or 14 feet). 'I couldn't cross the track; the street car would have killed me. I started to go back, but couldn't. I thought the man (in the automobile) would pass around. I had a bundle I had bought at the store, and my purse in my hands besides my baby."

"The automobile came to me. I don't know how many miles an hour it was coming at. It was coming awfully fast. It struck me. The front wheel ran over my left side. I don't know what happened my child. I didn't know any more."

"I have lots of bruises on me now. The worst part is where the wheel struck me on the left side."

Asked to describe the state of the street at the time of the accident, she said she thought the pavement was all right. Besides those already mentioned there were in the little private ward Ray Finlay, the accused, Deputy Police Chief Palmer, Police Court Clerk Gardner, who took down the injured woman's evidence in shorthand, one other young man and the "Times" representative. The hearing lasted about twenty minutes.

The case is to be resumed at the police court on Wednesday.

MANILA BUSINESS MAN RETURNS HOME

Philippine Residents Awaited Results of Presidential Election With Anxiety

The intense interest in the presidential elections was fully shared in the Philippines, according to W. W. Coleman, a business man of Manila, who arrived on the Sado Maru yesterday from the Orient. He left the capital on October 18, joining the Japanese boat at Hongkong, and since that time has heard by wireless of the great typhoon which devastated a large part of the southern portion of the Philippines, over a thousand lives being lost.

Mr. Coleman said a large amount of the interest taken in the election was due to the pronouncements of Democratic leaders as to the future of the Islands, and the United States relations thereto. Only recently the members of the Legislature had approved of the autonomy bill introduced into the United States Congress recently.

He did not know what effect the typhoon would have on trade, but business had been very good in the group recently. The Islands were prosperous, and business unusually active, except for the inevitable dullness of pre-election contests, which the American business men carried with them overseas.

A great deal was being done for the Philippines to-day, and the effect on business of any political change would be far reaching to the average American business man, who had his interests there. Mr. Coleman referred to the increasing amount of traffic which was being done by the Japanese liners in competition with the direct boats of the Pacific Mail Steamship Company, and the numerous passengers who used the route by China and Japan to the United States in preference to the more direct service. There was a good deal of business expected in freight as well by this route.

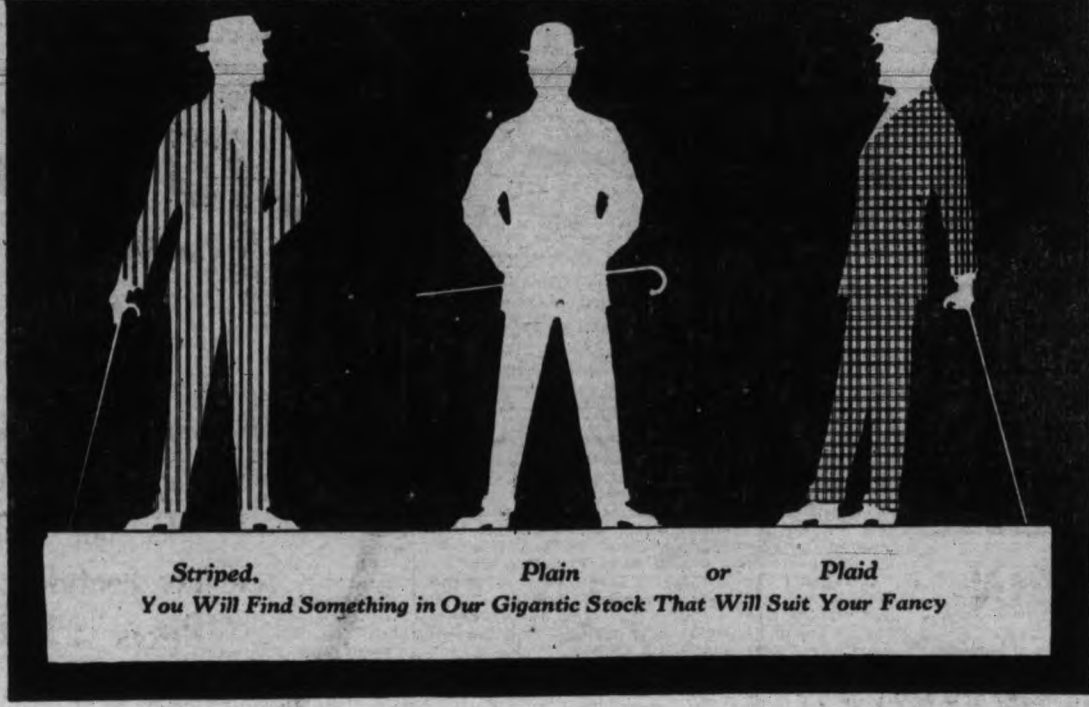

If you are looking for large offices, centrally located, we have three still to let—one at \$25 and two at \$35 each. Automatic elevator, steam-heated and janitor services free. Apply at once to Fitzpatrick & O'Connell, 1017 Government street.

Who's Your Tailor? Why Cuming, of course. At any time, 727 Yates street, is the greatest place in town for Men's Suits, and this week they're running one of their genuine half-price sales. See page 16.

Hobberlin,
Toronto.

Dear Sirs—

Having waited for two years to be one of your agencies, I am now writing to you, to ask you if you would make me up suits if I furnish the cloth, as I can see that you make the best suits in Canada.

I am not guessing at that, for I have been a tailor for the past thirty years and am still a tailor now, and I know a good suit when I see one. I must congratulate you for having so good a cutter and designer and examiner, because I have pressed some of your suits for Square 33, Henderson Bros.

Please answer.

Yours, and oblige.

COMMISSIONER OF CUSTOMS.

Official Returns From Swatow on Furlough to Spend Thanksgiving at Home.

On furlough, Commissioner of Customs E. G. Christ, of Swatow, China, arrived on the Sado Maru yesterday, and hurried off the boat to catch the afternoon steamer to Seattle. He has several matters to attend to before he can reach his home for Thanksgiving next week.

Mr. Christ was reticent when approached for a statement about matters in China to-day, and the effect of the Chinese republic in changing the political ideals of the people. He declined to be drawn into a discussion on politics, pointing out that he was holding for the American government the position of an official character, and "people who know anything about politics in China never talk; only those who don't know, and to whom no one pays any attention, do the talking." When the newspaperman pointed out that this cryptic remark would prevent the public from knowing anything outside dry official documents, he declined to be drawn further, and hurried down the gangway with a cordial "Good-bay."

MUNICIPAL NOTICE

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable:

1. To construct a permanent sidewalk of concrete on the west side of Douglas street from Fisgard street to Herald street;
2. To grade, drain and pave with an asphaltic pavement Fisgard street from Cook street to Chambers street, and construct permanent sidewalks of concrete with curbs and gutters on both sides of said street, also lateral connections to sewers, surface drains and water mains, and remove poles, if necessary;
3. To construct a permanent sidewalk on the north side of Herald street from Government street to Blanshard street;
4. To grade, drain and pave with an asphaltic pavement Bank street from Cowan avenue to its southerly termination, and construct permanent sidewalks of concrete on both sides of said street with curbs and gutters, also lateral connections to sewers, surface drains and water mains, and remove poles, if necessary;
5. To construct a permanent sidewalk of concrete on the north side of Dallas road from Cook street to Babbly street;

And that all of said works shall be

carried out in accordance with the provisions of the Local Improvement General By-Law, and amendments thereto, and the City Engineer and City Assessor having reported to the Council, in accordance with the provisions of Section 4 of this by-law, upon each and every of said works of local improvement, giving statements showing the amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said work, and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the Council:

NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a majority of the owners of the land or real property to be assessed for such improvement, and representing at least one-half of the value of the said land or real property, is presented to the Council within fifteen days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the Council may by by-law in that behalf resolve and determine.

PERSONAL

Hon. Abraham Smith, who has been seriously ill ever since Tuesday last, is slightly better, and hope is entertained that he will rally rapidly and soon be about town again as usual.

Sister Mary Concepcion, of St. Ann's convent, remains confined to her bed, and to-day shows increased weakness, although in no way suffering more than hitherto.

ANDREAS DIPPEL AND HIS OPERA SINGERS

Will Give Two Performances To-morrow—Those Who Compose the Company

Andreas Dippel, the celebrated singer-manager of the Chicago opera, makes his Canadian debut as a provider of the highest class musical entertainment when Wolf-Ferrari's "Secret of Suzanne" is produced at the Victoria theatre to-morrow afternoon and evening by a company carefully chosen from the principal artists of the Chicago grand opera. The engagement is notable inasmuch as this will be the first occasion of the performance of this famous opera in the Dominion, and it is promised that it will lack none of the essentials of success identified with the original productions.

Preceding the opera, which is described as a masterpiece of musical condensation as well as probably the most melodious opera of modern authorship, and which requires but one hour in its performance, a concert is to be given at both matinee and evening in which a number of especially distinguished singers and instrumentalists will be heard, these including Miss Agnes Berry, a phenomenally successful new grand opera soprano; Sig. Borris, Herr Albin Steindel, Chicago's most promising violin virtuoso; Herr Heinrich Hofmeeder, cellist; M. Ch. Lurvey, last season's solo pianist with Mme. Gdaski, and others of like calibre. The opera, which Ermanno Wolf-Ferrari has told so effectively in delightful music, is based upon a quaint comedy written some fifty years ago by Enrico Gollisclani, the English translation of which is furnished by Claude Aveling. As a comedy it was

some years ago produced in England with Marie Tempest in the stellar role. As an opera it has received superlative praise from the European critics since its first production in Munich in November, three years ago.

Particularly a subject of admiration is the unique orchestration which will be cared for here by the original Chicago Grand Opera Company corps of famous instrumentalists under Sig. Attilio Parelli, with Herr Albin Steindel as concert-master. The overture and intermezzo are notable for their wealth of melody and exceeding daintiness.

The company arrives from San Francisco direct by early steamer to-morrow, and complete performances (concert and opera) will be given both afternoon and evening.

PRESENTATION TO PRESIDENT.

W. W. Baer's Services Appreciated by Progressive Club.

An interesting presentation marked the close of the Progressive Club's dinner at the Westholme grill last evening when W. W. Baer, the retiring president was made the recipient of a handsome gold locket. The presentation was made by Mr. Hutchinson, the secretary of the organization, who in a felicitous little speech expressed the regret of the club in losing the services of so valuable a worker as Mr. Baer had shown himself to be. He wished him every success in his new field of labor. The president responded feelingly and said that he would wear the charm always as a remembrance of his connection with the club. Messrs. Armstrong, Fletcher and Sheridan Bickers also made complimentary reference to the work performed by Mr. Baer and wished him every success.

BOARDED BOAT AND USED KNIFE

INDIAN WOUNDED FISHERMAN IN DARK

Johnny James Sent to Jail Two Months for Attacking Joseph Shumick

Johnny James, an Indian, will spend the next two months in jail as a result of a nocturnal visit he paid to the fishing boat of Joseph Shumick as it lay at anchor last Saturday night near a boat house in front of the old marine hospital site.

Shumick told a vivid story of the dark affair. He had retired beneath the canvas which he nightly stretches from the mast of his craft, he said, and was endeavoring to sleep. Shortly after he had heard the city clock strike the hour of 2 a. m., his attention was attracted by the sound of something which was rubbing along the hull of the boat. To satisfy his natural curiosity he pushed his head through an opening in the canvas. He saw, so he said, a canoe alongside containing two Indians, one of whom was Johnny.

Anxious to learn why Indians should be paddling about the harbor in the middle of the night, he asked them what they wanted and was informed that they were cold and wished to lay their shivering bodies by his fire. He gave them permission to come aboard and threw a stick on the fire. Johnny got into the boat, according to Shumick, but he was told that he could not lie down as there was too much water in the boat. Shumick said he had been trying to lie down himself and had had trouble with the water. The fisherman intimated to the Indians that a fire built on the shore would probably warm them, but Johnny replied that the police always chased them away.

Shumick said that the visitors asked him for whiskey, and that he told them he had none. Then they said they had a bottle and Johnson Charles, Johnny's companion, who had remained in the canoe, produced it. When Johnny had handed it to him, Shumick said he raised it to his olfactory organ to discover if it really contained whiskey. Then, according to Shumick, some blunt object, such as a dull knife or a hook, was drawn across his throat, after which the Indians paddled rapidly away in their canoe.

"I reached for my rifle among the blankets," Shumick testified, "but I felt blood on my neck and I thought my throat had been cut."

He had to have three stitches put in his throat. These he displayed to the magistrate. He said that the stepfather of the attacking Indian later told him that Johnny had always been a good lad.

Thomas O'Connell, Dominion constable, said that Johnny had afterward come some distance and given himself up at his request. He had known the youth since childhood and had always found him quiet and orderly.

James, not being involved in the charge of wounding, was discharged, but Johnny was sentenced.

SENT AWAY FROM THE CITY.

Young Woman Had to Leave—Her Companion Given Six Months At Labor.

Peter Bass, a young French-Canadian, who said he had lived for six years in Vancouver, was sentenced to six months at hard labor by Magistrate Jay this morning. Kathleen Creamer, whose age, according to her testimony, was nineteen, testified that Bass had brought her here from Vancouver a few days ago. She said that the young man had taken all money from her as she had got it. She admitted having been sentenced once for vagrancy in Vancouver and having been let go as there was no room in the jail, and also having been sen-

tenced to six months and allowed out on suspended sentence. Her father was dead, she said, and her mother did not know she was in Victoria. Formerly she had been a waitress. She laid all the blame on Bass. She was ordered to be sent out of the city.

COMMEND POLICE FOR AID.

Street Railwaymen Also Send Donation of \$20 for Proposed Fund.

The Street Railwaymen's Association sent the following letter of appreciation and a donation of \$20 to the city police through Chief Langley this morning:

"J. N. Langley, Esq., Chief of Police. "Dear Sir:—The members of division 109 of the Street Railwaymen's Association wish to tender their sincere thanks to the members of the police force for the prompt and efficient manner in which they attended our brother conductor, W. Kirkbridge, when he met with his accident on November 18, in appreciation of which I am directed to forward you the enclosed sum of \$20 to go toward the First Aid fund, which we understand you contemplate forming.

"Yours truly
"(Signed) T. H. NOCK,
"Sec. of Division 109."

The Evening Chit-Chat

By Ruth Cameron

"If an injury cannot be pardoned in silence it is far better then to say what we feel about it."—Dora Mele-sari.

A young couple whom I know are planning to undertake a very dangerous experiment; they are going to have a large house and go to housekeeping in partnership with another young couple. The wife was talking over their plan with me. "I know it's a rather risky thing to do," she said, "but we both like the house and we can't either of us afford to take it alone. So we are just going to try it this way. And there's one thing that I'm going to do that I think ought to help a lot. The day we start I'm going to say to all of them, 'Now if any time I say anything or do anything that any one of you doesn't like, before you get offended or hurt and begin to act cool and stiff, please come to me and tell me about it, and see if I really meant it the way you thought or if there isn't some explanation that will clear things up, or if I'm not willing to try to do better. I'll do the same by you, and I think that ought to keep the atmosphere clear and prevent any trouble from starting.'"

Now I wouldn't dare prophesy that even with that prologue the undertaking will succeed. It has always been my notion that no one house, if it covers an acre is big enough for two families. But I do think that if the four people concerned honestly follow that plan of action they will have a far greater chance of keeping harmony in the double home than otherwise. For how many heartburnings, how many coolnesses, how many lifelong feuds start not from any actual unkindness or offense, but simply from a wrong construction put upon some perfectly well meant word or deed. How many times if the offended one had gone directly to the offender and asked an explanation, a few words would have blown the trouble away like chaff before the wind. A word in time often saves nine hundred.

I am looking back now to a time when I brooded over what I thought was intended as a cruel criticism from a very dear friend. For weeks I let the hurt fester. Finally I spoke out and she easily explained that the words I thought were intended to hurt me were merely a chance quotation of a catch-word which she thought I knew and would understand.

Why build such tremendous structures of unhappiness and offense on such tottering foundations? Some day they will surely come tumbling down about your ears and overwhelm you in the ruins of shame and wasted friendship. If you must build these foolish and ugly structures at least make sure that you have some good foundation.

Ruth Cameron

Ethel—Jack Huggard told me a long story last night.
Kitty—Is he an interesting storyteller?
Ethel—I should say so. He held his audience from start to finish.

Fill the blank. Order Hennessy Brandy and have it ready for emergencies.

NOW is the time to buy

HENNESSY BRANDY

WILL AGITATE FOR ANNEXATION TO CITY

Wedge of Territory Between Districts of Victoria and Oak Bay Is Restless

Just as last year the prolonged discussion on the Greater Victoria scheme was precipitated by an attempt on the part of both Victoria and Oak Bay to secure the portions of sections 25, 26 and 27 which are wedged in between the northeast boundary of the city, and Oak Bay, so again it seems probable that the subject will be hastened by the circulation of a petition for annexation to the city, which is now being signed.

It is the district directly east of Oaklands, and of a similar character, with smaller dwellings and scattered stores. The residents are mainly working men employed in the city, and the question is strongly revived in favor of the creation of a suburban district of North Victoria. The district adjacent to the city from the Uplands to Portage Inlet feels it has no sympathy with Royal Oak and Keatings, and being practically all subdivided, it requires treatment different from an agricultural district. Street car accommodation, lighting, water services, and sewerage are the crying needs of the district, and fire protection is also becoming a necessity.

They feel so keenly on the subject of water services that opinion favors an appeal to the legislature for amendment of the Victoria water act to compel the city to supply water in greater abundance, in view of the fact that the gathering grounds and lake supplying the city are in the bounds of the municipality. Time and again the requests of residents have to be turned down because the city is not in a position to supply water with the existing state of things, nor at present does the situation for next summer look more favorable.

Fire protection is another important matter, and the district must do something, probably in co-operation with the city, as Oak Bay has already arranged, with the large number of frame houses of recent construction built on the outskirts of the city. The sewerage question has been held up through the blunders and delays over the northeast sewer, and the slow progress on the Shelburne street one, into which the Saanich sewerage will ultimately flow. A year ago the municipal engineer, C. H. Popp, E. R. prepared a plan showing the portion of the district which would be drained, and this has since been waiting attention. The whole subject is one which is receiving the careful attention of the municipal council, and particularly Councilors McGregor and Dunn, who are mainly affected by their representation of suburban wards.

Many Took Advantage of Our Sale To-day— But There Are Still Many Opportunities for You to Save Money Saturday Hats Reduced to \$2.75

VISITS VICTORIA ON DOG SHOW MISSION

Entry Blanks for Show Decem-
ber 7 at Vancouver With
Shortt, Hill and Duncan

George A. Cranfield, secretary of the
North Vancouver Kennel Club, was in
town yesterday arranging for entries
for the North Vancouver Kennel Club
show to be held at Vancouver on De-
cember 7. His visit resulted in sev-
eral dog fanciers in Victoria promising
to send over their dogs for the show.
Among them are J. S. Hickford, T. C.
Smith, C. W. Minor, R. Monteith, Miss
Winslow and R. Wolfenden.

Entries for the show will positively

close with Mr. Cranfield at his office,
214 Metropolitan block, Vancouver, on
November 29, and after that date no
entries whatever will be received. He
arranged while here for leaving entry
blanks for those who desire to enter
exhibits with Shortt, Hill & Duncan,
jewelers, Broad and View streets, where
all exhibitors can obtain them.

The selection of judges for the show
has given the greatest satisfaction to
local exhibitors, said Mr. Cranfield
yesterday. Three of the names in the
list are as follows:

John L. Bamford, who is now on his
way from Ireland, will arrive here on
December 1. He has been breeding
and exhibiting dare devils, fox and
Alredale terriers on the other side of
the water for years and is conceded to
be one of the best judges in the Em-
erald Isle.

J. J. Jackson, of Edmonds, B. C.,
who will judge collies and old English
sheep dogs, will don the ermine for the
first time. He is an old breeder and
exhibitor from England, and now owns
the best collie kennels in this province,

and no doubt his awards will meet with
approval.

As a judge of setters, pointers and
cocker spaniels there is no better than
T. D. McConnell, of Victoria, who is
giving his services gratis to help out a
good cause. He is the breeder of cham-
pion English setters and has been called
upon to judge at Oakland, Califor-
nia, and many other shows.

Mr. Cranfield says that from present
indications the show will be the most
successful ever held in Vancouver.

WEATHER BULLETIN

Daily Report Furnished by the Victoria
Meteorological Department

Victoria, Nov. 22—4 a.m.—The barometer
is rising over Northern British Columbia
and more settled weather may follow.
Heavy rains have prevailed on Vancouver
Island and the lower Mainland, while
from Puget Sound southward to Cal-
ifornia the weather is general. The
weather remains fair and mild in the
Prairie Provinces.

Forecasts.

The Great French Tonic

VIGOROL

Makes Men and Women Strong
—Mr. Campbell, your Drug-
gist, is the First to Import
this into Victoria—Get a
Bottle and be Healthy.

Since the introduction of VIGOROL
into Canada the sale has been phenom-
enal. VIGOROL is purely a tonic
—it builds up the run-down system,
creates a new lease of life. Every-
body should take it. The only
question is what to take. You can
rely upon VIGOROL as one of the
greatest, if not the greatest, that man
ever prescribed. Every drop of this
wonderful French Tonic contains life.
Your nerves are toned up to their pro-
per tension. The stomach and bowels
are made healthy and strong, while
the kidneys and liver are cleansed and
put in good working order. Headaches,
biliousness and all blood impurities are
at once removed. The skin becomes
clear and healthy. VIGOROL in short
will change your whole system making
it pure and healthy. Mr. Campbell,
your druggist, will refund your money
if it fails. Price \$1.50 a bottle, or six
for \$5.00.

WILL TERMINUS BE AT NOOTKA SOUND?

OF CANADIAN NORTHERN
PACIFIC ISLAND LINE

Location Plans to Points on
Both East and West Coasts
Approved

The most important item in the B.
C. Gazette of last evening, which
otherwise contains very little of local
interest, is the announcement of the
approval by the Minister of Railways
of the Canadian Northern Pacific
Railway location plans of lines from
Mile-210, Quinsam River to Murchat
Arm, Nootka Sound, on the West
Coast, from Mile-215.5 to Duncan Bay,
on the East Coast of Vancouver Is-
land, and from Mile-235.5 to Butties
Lake. The notice in full is as follows:
"The Canadian Northern Pacific
Railway Company, having submitted,
in accordance with the provisions con-
tained in sub-sections 1 and 2, section
16, chapter 194, British Columbia Rail-
way Act (R.S.B.C., 1911), a plan show-
ing the proposed location of a line of
railway from Mile-210, Quinsam River,
to Murchat Arm, Nootka Sound, Mile-
270; also branches from Mile-215.5 to
Duncan Bay, Mile-221, and from Mile-
235.5 to Butties Lake, Mile-244; Com-
mon, Sayward and Nootka districts;
and this plan so submitted having
been approved by me, I do hereby, in
pursuance of the provisions of sub-
sections 5, section 16, chapter 194, B. C.
Railway Act (R.S.B.C., 1911), issue to
the Canadian Northern Pacific Rail-
way Company the certificate of ap-
proval of the plan above mentioned."

The time for completing the assess-
ment roll for the year 1912 throughout
the province has been extended from
November 30, 1912, to January 10, 1913,
and the time for completing the du-
ties of the courts of revision and ap-
peal in relation to this roll has been
extended from December 21 prox. to
January 31, 1913.

The Canada Gazette contains notice
that the Kettle Valley Railway Com-
pany will apply to parliament for
power to build from Summers' Creek,
to the Copper Mountain and Volga
mining camps, about 15 miles south-
west of Princeton; from Vernon to
Penticton by way of Kelowna; and to
the Otter Summit and for 50 miles up
the Tulameen river.

The Cariboo Agricultural & Horticul-
tural Association has been incorporat-
ed under the provisions of the Agricul-
tural Association's Act; its headquar-
ters will be at Quesnel. A farmers' in-
stitute has also been organized with
headquarters at Revelstoke, and a wo-
men's institute for the Salmon River
Valley, with headquarters at Silver
Creek.

Tenders will be received at the de-
partment of public works up to noon
of Wednesday, December 19, for the
construction of a frame building on
concrete foundation to be known as
the Mine Rescue Station, at Nanaimo.
Tenders have also been invited, re-
ceivable up to noon of Monday, De-
cember 9, for the erection of a court-
house and provincial offices at Que-
nel.

"SYRUP OF FIGS" FOR INDIGESTION, BILIOUSNESS AND CONSTIPATION

Better than castor oil, calomel or cathar- / to cleanse
your stomach, liver and 30 feet of bowels. Harm-
less Laxative for men, women and children.

Primitive folks did not need laxa-
tives. They lived outdoors, ate plenty
of fruit, and all of their food was
coarse. We modern people are differ-
ent. We exercise too little, eat little
fruit, and our food is too fine—too rich.
We simply can't have our ten yards
of bowels clogged up. Liver choked
with sour bile and stomach full of foul
effete matter and feel well. It means
that the food and waste retained in the
stomach and thirty feet of bowels fer-
ments—decays. The decay creates poi-
sons, gases and acids, and those poi-
sons are sucked into the blood through
the very ducts intended to suck in the
nutriment. Then we have sick head-
ache, become dull, bilious, tongue coat-
ed, nervous, meals don't digest, and we
feel miserable all over. So we must like
make our choice. We must live like
primitive folks, else we must take arti-
ficial means to move the excess and
waste matter on and out of the system.
The safest, most harmless and effec-
tive stomach, liver and bowel cleanser
and regulator for men, women and
children—is delicious Syrup of Figs,
which doesn't irritate, gripe or weaken.
Its effect is the effect of fruits. It is
composed entirely of luscious figs,
senna and astringents. Don't think you
are drugging yourself. Syrup of Figs
can be constantly used without harm.
Ask your druggist for "Syrup of
Figs and Elixir of Senna," and see on
the label that it is prepared by The
California Fig Syrup Company. This
is the only genuine—the old reliable.
Refuse, with contempt, the so-called
Fig Syrup imitations sometimes of-
fered to deceive you.

SURVEYING ROAD FROM AGASSIZ TO RUBY CK.

Rumors Rife at Rugby Creek That Railway Terminal Will Be There

Ruby Creek, Nov. 22.—A party of surveyors, under orders from the provincial Department of Public Works, is surveying for an extension of the road on the north shore of the Fraser from Agassiz to Ruby Creek, which, when relocated round Agassiz and completed to here, will give a continuous road from Vancouver. Between here and Agassiz there are several difficulties to be overcome, of which the greatest is Sea Bird bluff.

It is rumored and believed here that the road is not to be continued eastward from here but that a traffic bridge will be built across the Fraser from here to near St. Elmo to connect the roads on the north and south banks below the diversion of the National Highway at Silver Creek. But, according to the same report, this will not affect the location of the railway bridge which is to connect the Kettle valley with the Canadian Pacific.

G. N. R. MAY BUILD IN FROM KAMLOOPS

Possibility of Route Up the North Thompson to City of Tete Jaune Cache

Merritt, Nov. 22.—With the opening of the Diamond Vale collieries is the prediction by the men of affairs of Merritt who have been in close touch with the transportation situation, that Merritt, instead of being only on a branch line of the Canadian Pacific railroad, will be on the main line of the Great Northern route.

The Great Northern is constructing at present from Coalmont to Canyon House, through Tulameen and Otter Lake, and the indications now are that the road will go through Aspen Grove instead of Brooks' Summit; and thence up the Goldwater river to the summit of Coquahalla, thereby getting the prospective tonnage in the Aspen Grove district and that ready to be had in Merritt.

In order to get from Edmonton to Vancouver the Great Northern would have only to construct a railway from Quilchena hotel to Edmonton to secure a main line from the rich Northern country through Merritt. The Great Northern could build from Quilchena hotel to Kamloops, parallel the Canadian Northern on the opposite side of the North Thompson river to Tete Jaune Cache, and then through Yellowhead Pass to Edmonton or to any portion of the Northern Peace river country which has been much sought by the railroads. The G. N. R. would have to build only from Quilchena hotel to Edmonton to get into that rich country, as against the Canadian Northern and the Grand Trunk Pacific having to build from Edmonton to Vancouver. The Great Northern would be closer by about 250 miles and would find it necessary to expend only about half what it would cost the other roads.

In addition to what the Great Northern is planning, it looks as though also the Canadian Pacific intends to put Merritt on its main line by constructing about sixty-one miles of scratch work from Merritt to Kamloops, as against about 170 miles of heavy rock work down the Fraser river canyon to Ruby Creek from Kamloops to Merritt and down the Coquahalla to Ruby Creek would be one leg of the main line instead of double-tracking from Kamloops to Ruby Creek.

NELSON SCHOOL TROUBLE.

Nelson, B. C., Nov. 22.—The school board, at the close of the investigation to-day, decided, by a majority of one vote, to disperse with the services of R. Thompson, the principal. This is the sequel to the resignation of the teachers as a protest against the principal's conduct. The teachers objected to his manner in addressing them, declaring that he publicly criticized their work and had displayed irritability of temper.

"How's your husband this morning, Mrs. Finnigan?" "Oh, he's very poorly, yer riverence. And it's a mighty expensive disease he's got. The doctor says I've to keep him in good spirits."

HAZELTON ARRANGES WINTER CARNIVAL

Derby for Dog Teams, Snow-Shoe Races, Ski Jumping and Ice Hockey

Hazelton, Nov. 22.—A project is on foot for the holding of a carnival of winter sports in Hazelton soon after New Year. It is proposed to have a distance race for dog teams, in emulation of the famous Alaska Derby, as well as races at shorter distances, snow-shoe races, ski jumping, hockey match and other features of interest.

The big race for dog teams will naturally attract the most attention, as there are in Hazelton quite a number of men who take pride in the speed and endurance of their toboggan teams. Among those who are expected to enter teams are W. J. Lynch, W. W. Wrathall, Bill Sweeney and Harris Bros. The promoters of the carnival will have their preliminary plans arranged in the course of a week or so and expect to make the event a big drawing card.

BUILDING TUNNEL TO TAP ORE BODY

Mill of 150 Stamps for Alaska Juneau Company and Cyanide Plant

Prince Rupert, Nov. 22.—The Alaska Juneau Mining Company, a subsidiary company of the Alaska Treadwell Company, has completed 1,500 feet of its tunnel of a proposed length of 7,200 feet from the shore of Gastineau channel, beneath Mt. Roberts, to the Silver Bow Basin. This is estimated to contain a body of low-grade gold quartz of a probable value of \$800,000,000. A mill of 150 stamps is being installed to start with, and a \$500,000 cyanide plant is being proposed.

This is the second cyanide plant in the Harris Mining district, the first having been erected by the Treadwell Company two years ago at a cost of \$2,000,000. This plant has proved a success and has eliminated the cost of shipping concentrates to the Tacoma smelter, the ore being all now treated and the values all extracted on the ground.

WARD SYSTEM WILL REMAIN AT BURNABY

Council Goes Against Wish of Electors Declared at Last Polling

Edmonds, Nov. 22.—The abolition of the ward system by-law, which came to a vote at the last meeting of the Burnaby council, received the same treatment as that which was handed the B. C. E. R. franchise at the last meeting, viz., a quiet death.

Conditions were reversed, however, for the councillors opposing the franchise question were solid in favor of the going away with the present ward system while just as solid were the representatives against the by-law as they were for the franchise. It was a case of the extremes of the municipality pitted against the central portion with Reeve Weart holding the big stick. The chief magistrate of the largest municipality in the province declared last week that during his two-year term of office he had not been forced to use his vote in favor of any motion and to this policy he strictly adhered, regardless of what mandates, communications or pressure the different ratepayers' associations had brought in on the question.

The electorate in January last voted in favor of abolishing the present ward system, while at the same time voting for the commission form of government. The polling was practically identical, viz.: 392 for, 255 against, leaving a majority of 137. There were 971 votes cast in the reeveship contest and both Reeve Weart and Councillors MacDonald and McGregor, while speaking against the motion, last night asked whether the vote was a true test of the feeling of the people.

However, the ward system will continue for this year at least and it will be up to the council of 1913 to change it or leave it, just as they think fit.

BIRTHDAY CALENDAR

IF THIS IS YOUR BIRTHDAY

Avoid risks. Two nature will seem to struggle in your mind. The advantages offered by each should be taken, but when they conflict your actions should be according to reason, rather than impulse.

Those born to-day will be positive in character and will lead eventful lives. More depends upon their early understanding of the results of different actions than their unquestioned obedience.

Birthday Congratulations TO

Alexander, Frederic William (Calgary); born Fredericton, N. B., 1878; engineer of maintenance of the C. P. R. Birnie, John, B. C. L. K. C. (Collingwood, Ont.); born Collingwood, 1862; city solicitor of Collingwood; an expert in admiralty and marine law.

Tombes, Guy (Montreal); born LaChute, Que., 1877; general passenger and freight agent of the Canadian Northern railway and steamship system at Montreal.

IDEAS OF A PLAIN MAN

BY DR. FRANK CRANE

A certain prefect, furnished by Ves-pasian, left Rome to finish his days in the country; it was he who said: "I have passed sixty and ten years upon the earth, and I have lived seven of them," alluding to the profitable time he had spent in the country, cultivating his garden and his soul, as compared with the tumultuous non-existence at the capital.

How much of your life have you lived, and how much of it have you merely passed?

Yesterday, for instance, did you live really? Or was it merely an interval between things regretted in the past and things hoped for in the future?

How often dare you say: "This now is life. I am happy; I am feeling the joy of existence. I am expressing my inner self completely?"

Or is your life always a to-morrow and to-morrow and to-morrow, with here and there bitter dashes of yesterday?

"Nag" Roof Compositions are fire-proof and add years to the life of an old roof. See Newton & Greer Co., 1226 Wharf street.

WATSON'S 1321 Douglas St. 635 Yates St. WATSON'S

IMPORTANCE OF HINDU ACTION

OFFICIALS AND COURT REFERENCE

Steamship Companies and the Immigration Law as Now Administered

The action of the Hindu, Bischa Singh, against the Great Northern railway and the Nippon Yusen Kaisha

steamship company, for which the former acts as agents, arising out of the refusal to book passengers of Hindu race from India to Canada, is one of the greatest importance in its political and ethnological effects.

The writ was served through C. F. Davis to-day on the representatives of the company, who fully realize that the case is a test one, in which the whole subject will be threshed out as regards the question of steamship companies receiving the fares of Orientals. Although M. Dale, the local agent, did not expressly say so when asked if the writ had been served, the impression was conveyed that some decision must be reached on the subject to guide transportation companies.

It is more than probable that the other companies, like the Canadian Pacific railway, will support the company sued for alleged discrimination, as what affects the Nippon Yusen Kaisha Company, has an influence on all.

Mr. Dale said there had been no refusal of passages to Hindus going

home, but the booking of passengers from Calcutta was another matter.

Mr. Davis expressed the opinion that he had advised the Hindus that they had an action at common law for refusal of a steamship company to transport them, being common carriers, and the only power of refusal they had was that of persons suffering from disease, or likely to be a danger to the public. They had knowledge that other persons were booked to India from the

Great Northern offices in this city, hence the discrimination alleged. He did not wish to go further till the case came on for argument.

The immigration law on the point is covered by order in council dated May 3, 1910, and is as follows: "From and after the date hereof the landing in Canada shall be, and the same is hereby prohibited of any immigrants who have come to Canada otherwise than by continuous journey from the coun-

try of which they are natives or citizens, and upon through tickets purchased in that country or purchased or prepaid in Canada."

It is common knowledge why that order-in-council was passed. It was aimed to stop Japanese from the Hawaiian Islands from landing in Canada, and it effectually checked that immigration.

Later when it was discovered that it was impossible for Hindus to come to Canada because there was no direct steamship connection, the order was modified to the extent of permitting transshipment provided the passenger had a through ticket already paid for at port of departure.

The medical immigration inspector at this port, Dr. G. L. Milne, said to-day that the law was now administered to enable the Hindus to land, provided they passed the regular immigration tests physically and educationally, but there were very few coming in, except returning Hindus. The refusal of the steamship companies appeared to be one entirely of policy.

They feared that diseased immigrants would be ordered deported to the land of origin, and since the inspection of Orientals on account of hookworm and other diseases prevalent in tropical countries had become more rigid, the steamship company stood a much greater chance of hav-

ing to pay for deportation than was formerly the case.

Providing a passenger from India booked on a Nippon liner, for instance from that country to Hongkong, and transhipped there, if the man started with a through ticket there was nothing more to prevent him from landing in Canada than the immigrant of any other country.

OBITUARY RECORD

The death occurred last evening at the Royal Jubilee hospital, after only a few days' illness, of Miss Alice Mary Galletly, daughter of the late Lieut. Colonel Galletly, and sister of A. J. C. Galletly, 1715 Rockland avenue, late manager of the Bank of Montreal, and of Miss Galletly, 1737 Rockland avenue, with whom she lived. The deceased lady came to this city with her father from the old country about ten years ago, and leaves a large circle of friends by whom her death will be mourned. The funeral will take place to-morrow morning at 10.30 from the residence of A. J. C. Galletly, Hochelaga, Rockland avenue, and half an hour later from Christ Church cathedral, Very Rev. Dean Doull officiating.

The funeral of Glim Song, the Chinaman who was killed last Saturday at

2 o'clock, will take place on Sunday afternoon at 2 o'clock from the B. C. Funeral Parlors, with the usual Chinese services.

The funeral of the late Evelyn Palmer Dickinson took place this morning at 10.30 from the Victoria Undertaking Parlors, Rev. Mr. Collinson, of Cedar Hill, officiating. The deceased was a pensioner of the Royal Irish Constabulary, and many of the local campaigners attended the service, in addition to a large representation of Messrs. Davis & Sons' employees, fellow-workers of the deceased man. "Dearest My God to Thee," was sung. There was a large attendance, and numerous floral wreaths. The following acted as pallbearers: Messrs. Arthur Davis, Stanley Davis, Arthur Cartwright and L. T. Coton.

The funeral of the late George Brown took place yesterday afternoon from his residence, 1055 Princess avenue, Rev. Hermon Carson officiating. There was a large attendance of friends, and numerous floral tributes covered the casket. The following acted as pallbearers: George Hym, W. Goldie, J. Beckett, J. Sandhu, M. Ford and W. Clark.

Go to Cumings', at 727 Yates Street, Smart \$20 Suits for \$10, and others at the same rate. Stock of Suits will be cleared in a few days. See page 15.

Little Items that Put the Finishing Touches on a Woman's Dress

AND RENDER AN AGREEABLE CHANGE AT A VERY SLIGHT EXPENSE

CHOICE LACE COLLAR, a stylish jabot, a few touches of well chosen lace or ribbon will make such an agreeable change to your dress or costume that the slight expense will hardly seem to be worth considering.

These, and a host of other little items that women delight in, are to be had at the new store for women at 623 Johnson street, and the prices are what you will call reasonable.

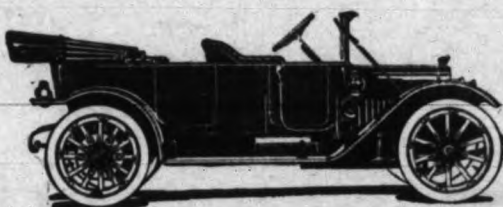

Just in time for the special Christmas trade, a shipment of Irish, Cluny, Maltese and Honiton laces, also a choice assortment of beautiful lace collars, sets, and jabots has arrived. These, together with our well assorted stock of Irish Linen Handkerchiefs, stylish Millinery, Flowers, Wings and Ribbons make a showing that should please and interest you.

We invite you to inspect our stock of new Dresses, Costumes, Winter Coats and choice Waists. They are all the newest in design and show such good taste that they will please even the most exacting woman.

It will be a pleasure to show any or all of these goods to you whether you make a purchase or not.

VICTORIA AS A TOURIST RESORT

ATTRACTING VISITORS TO VANCOUVER ISLAND

Progressive Club Discussed Important Subject at Dinner Last Evening

Optimism was rampant last evening at the dinner of the Victoria Progressive Club which was held in the Westholme grill. Despite the inclement weather a large number of members had gathered together, and the addresses delivered by J. F. Lins and Ernest McGaffey were worthy of the occasion.

W. W. Baer, the president, was in the chair while the services of J. Watson had been commended to fill up the gaps with lively anecdote and comic songs. Regretful reference was made by all the speakers to the fact that it was the last occasion on which Mr. Baer would occupy the presidential chair as a new field of labor called him to Vancouver. He was congratulated freely on the manner in which he had helped to build up the club to the successful heights to which it had already risen.

In his introductory remarks, the president observed that the interchange of ideas as was experienced by listening to speakers such as they had with them could not fail to have a rational effect on their intelligence regarding the best modes of doing the proper and legitimate work of a Progressive Club. He referred to the cordial relations which existed between the club and the Vancouver Island Development League, and adduced as proof of the fact the circumstances under which Mr. McGaffey, secretary of the league, had so cordially accepted the invitation to speak at the dinner.

J. F. Lins, manager of the Balmoral hotel, who opened his address by stating that at no time in the history of mankind had fruitful organizations been formed, and the latent energy of the citizens been stirred so potently for the purpose of attracting tourists. The things necessary to the true expansion of this idea, he thought were a realization of just how and where to proceed, and intense and concentrated co-operation.

The welding together of the business interests into one harmonious whole in the matter of city advertising and united endeavor towards offering a magnet to all the world was a consummation most devoutly to be wished. There was a tendency to narrowness of outlook on the part of business men if there was not some means of bringing them together for the interchange of ideas, and he thought that in this respect the Progressive Club was doing a work, the value of which could hardly be over-estimated.

The theme for the evening—"How to attract tourist traffic"—was a most suitable one, for it seemed to him that nature had most lavishly fitted this fair city to be a tourist resort of infinite possibilities. Eloquently the speaker went on to tell of the work which was being done by the civic authorities in the countries of the old world, Switzerland, Italy, Austria and France. Many of the American cities, too, had benefited by extensive publicity, and purely through its inherent virtues as a tourist centre, Los Angeles had risen from a town of fifty thousand inhabitants to the most thriving city in the State with a population of 400,000.

Tourist money had this advantage over that obtained through commercial interchange—that it stayed right in the city to which it was brought. The lure of Vancouver island was growing stronger year by year, and who could deny that the factors which had brought other tourist centres their prosperity were wanting in this Pearl of the West?

Applause.
"No argument is strong enough,"

the city for recreation, and on which the eye might rest after ranging over a wilderness of brick and mortar.

Boulevards in the business quarters as well as in the residential portions were most desirable, and would give the city a much more beautiful appearance.

A great kuraal of some kind was also much to be desired, and could be used for accommodation of conventions which could not be received in the city at this time through lack of building with adequate space to hold one. (Loud applause.)

Mr. McGaffey.
At the outset of his remarks, Mr. McGaffey said that he was going to present the reverse side of the sheet. In his opinion Victoria could never become solely a tourist resort. In everything that stamped a commercial metropolis Victoria was blessed abundantly. And yet she had merely placed her hand upon the gateway of her future greatness.

"To-day," said the speaker, "Victoria is the first port in the country. Tomorrow when she has linked herself with chains of steel to the mainland she would in all probability become the greatest city in the Dominion. The bridging of the Seymour Narrows, which is bound to come will be a forerunner of her high destiny.

Applause.
"There is a tide in the affairs of men which if taken at the flood lead on to fortune," he continued, "and even if Victoria has been slothful in the past in the last four or five years she has risen splendidly to the occasion, she has been vigilant to her interests, and to the heralding of her future greatness."

Will Rival Switzerland.
Mr. McGaffey was of the opinion that one day Vancouver island would more than rival Switzerland, and in fact the entire continent of Europe in the variety and splendor of its scenery, its woods and purring streams and cascades and waterfalls, its grandeur of sea and shore so sublime that words fail to paint the wonders of them.

There was a pleasure in the pathless woods which could not be denied, and Vancouver island at the present time was garbed in these wonderful woods. "Most of us, however," said Mr. McGaffey amid laughter, "have never been further east than Cadboro Bay or further north than Duncan."

He opined that the new Strathcona Park would double discount even the glories of Yellowstone and Yosemite and as a tourist resort would make Victoria more widely sought than ever. He described the tourists who came to this city as belonging to two distinct classes—those who came to stay and invest, and the "dough-nut brand" who lounged around the causeway for some minutes, chewed peanuts, and took the next boat away. The two classes comprised the desiderables and the undesirable.

Mr. McGaffey hoped the carnival idea would be a continuous one, and not merely a flash in the pan, and he hoped to see in the future a fixed and regular expenditure for advertising.

"We have got to advertise," he finished.

SOUND INVESTMENTS

WATERFRONT SNAP, ESQUIMALT HARBOR—This lot is worth investigation. It is well situated, on a sheltered cove, which provides ideal protection for small craft, being just such a place as you would choose for a summer homestead. We don't expect it to last long at the price asked, and would suggest that you have us show it to you at once. Price \$1775

We can arrange good terms on this lot.

DIRECTION OF EMIGRATION.

London, Nov. 22.—Robert Stanton, president of the British Passenger Agents' Association, deprecated before the Dominion royal commission the leaving of emigration to religious enthusiasts. He agreed that some statements circulated by his association regarding the Salvation Army were too strong, and he desired to withdraw them.

CANALEJAS JOINS ILLFATED QUARTETTE

Dead Spanish Premier Figured in Events Leading Up to Struggle in Spanish War

During the events leading up to the Spanish-American war Mr. R. Diaz-Albertini, Cuban consul at Toronto, was secretary of the Cuban legation in Washington. Discussing the assassination of the Spanish premier, Mr. Diaz-Albertini, in the course of an interview last week, said:

"With the death of Premier Canalejas of Spain the last of the five principals who were instrumental in bringing about the Spanish-American war has passed away."

"It was to Premier Canalejas that Senor Dupuy de Lome, Spain's minister to Washington, wrote the famous letter, in which he described President McKinley as a 'rot-house politician,' and in which he humbled him, before the world, by suggesting to Canalejas that Spain send to Washington a clever Cuban of the Autogist party able to speak English fluently, who would help to 'bamboozle' Mr. McKinley and the American people with promises of reforms and self-government for the Cubans, and also to state off any action by the United States toward recognition of Cuban independence."

"The story of how the letter was obtained is curious and interesting. Canalejas, then an influential and popular deputy, controlling a powerful newspaper in Madrid, came to Havana to be on the scene, where he could obtain direct and weighty matter to write about, and agitate congress. He corresponded extensively with Senor de Lome, and the Cubans naturally were on the qui vive for anything that might transpire to help their cause. One morning a Cuban, who knew that by searching Senor Canalejas' papers he might find something interesting, went to Canalejas' room, at the Inglaterra hotel, and on his desk, among other papers, he found the letter. He took it out of the envelope, taking care to substitute a blank sheet. The letter was taken with all speed to Washington, delivered to Gen. Estrada Palma, then minister of Cuba to the United States, who kept it with the utmost secrecy until it was published."

"A photographic fac-simile of the letter appeared with a translation of the text in all the Washington papers. The event created a tremendous sensation."

"Senor Dupuy de Lome, who had so ably pleaded the cause of Spain with Mr. McKinley, and who had, by all the diplomatic art at his command, deceived him, was unmasked, and . . . at the president's expense!"

"Senor de Lome was summoned to the State Department, and Mr. Day, the then secretary of state, put to him the simple question: 'Your Excellency, is this your signature, and was this letter written by you?' Senor de Lome answered: 'Yes, that is my signature, and the letter was written by me.'"

"Shortly after Senor de Lome was given his passports, and he left Washington. Subsequent events, with the destruction of the Maine, precipitated the war. "It is a curious fact that all the chief actors in the drama are now dead. President McKinley, Senor Dupuy de Lome, Canovas del Castillo, Premier of Spain at that time; Premier Canalejas, just assassinated, and General Tomas Estrada Palma, who died after being the first president of the Republic of Cuba."

CARE OF THE EARS.

Most Troubles Result From Ignorance and Abuse of Sensitive Organ.

The best way to care for the ear is to study the things not to do. It is one of the most independent of organs, knowing very well how to take care of itself. If it is duly respected little trouble or none will result. In cases where something unforeseen goes wrong a physician should be consulted at once.

Almost all troubles of the ear are due to abuses of some kind. The wax seems to worry a great many people, and in their concern they usually manage to seriously interfere with its functions. In the healthy ear the wax, or cerumen, is a thin yellowish fluid that thickens into a paste as it dries. Nature provides for its natural exit from the ear passage by uniting it with the tiny flakes of dead skin which fall outward unnoticed either by seeing or feeling. Thus wax does not accumulate in a healthy ear, which has just enough to make sticky the stiff little hairs that grow in the passage.

Instruments should never be poked into the ear by the inexperienced nor wads of material continually mopped and squeezed into the opening for cleansing. Usually such treatment induces an increase or caking of wax. Hot water is the best solvent for wax, 105 to 115 degrees F. If the need of it is imperative gently syringe the ear with it. Cotton plugs in the ear are painful at times, but should be used no more than absolutely necessary, for they obstruct the canal and interfere with the natural way of casting off wax—exchange.

STAFFORD HOUSE.

London, Nov. 20.—The mystery of the purchase of Stafford House has been solved. It is officially announced that the mansion has been bought by Sir Wm. Lever, of Port Sunlight, for presentation to the nation, to be used for public purposes not yet decided upon.

Stafford House is the finest of London's private mansions, and it is understood King George at one time contemplated buying it for the Prince of Wales.

PROPOSAL TO REMOVE ST JAMES' CHURCH

Montreal Church May Be Moved to Side of Lot—Will Save Money

The idea of moving St. James Methodist church, Montreal, bodily to one side of the big square on which it stands, was the astonishing proposition considered last night by the special commission which was appointed by the Montreal Conference to consider the future of the church, and this scheme was referred to a committee consisting of representatives from the trustees and quarterly boards and the commission to examine and report on at a future meeting. If this operation could be effected, it would give the church a large lot fronting on St. Catherine street, which would mean many thousands of dollars, and the financial aspect is a very serious one in the whole question.

"What we want is to get the worth of some of this property," said Rev. Dr. Sparling to The Montreal Gazette. "We do not need the whole of the land. The money is in the ground if only we can get at it, and the idea is if we can get the church to one side of the property, we would then have a big slice to sell or utilize in any way we thought fit. We want to carry on a bigger work in the church and that requires money. I confess this scheme sounded me: I have heard of moving buildings, but never dreamed that it would be possible with a church."

It appears that expert testimony was before the meeting that such a scheme was possible, and the commission was so far satisfied of a prima facie case that they appointed a committee to gather further facts and details as to cost and feasibility. It was made clear that it would not mean a new building. Dr. Sparling said he was not at all opposed to the scheme, but he was not at all sure that it was a wise one. "We hope no change will interfere with its beauty," he said, "for that is what the Methodism of Canada wants to keep."

The whole feeling of the meeting was that St. James must stay where it is on St. Catherine street and must not abandon the site. Further, the feeling in favor of introducing institutional church features was very strong, and on this matter Dr. Sparling said they recognized the fact that there was a large floating population, composed largely of fine young men and women for whom club rooms, gymnasium and such attractions should be provided, making it a seven-day-a-week church. It is felt, however, that all this accommodation could be provided in the rear in such a way as to save the ecclesiastical appearance of the church. "It is a big problem," was Dr. Sparling's final word, "one not to be solved before breakfast, and we must just work it out, no matter how long it may take."

ARCHBISHOP RETURNS FROM WESTERN TRIP

His Grace is Surprised With Remarkable Progress Made in Recent Years

"The progress of the West in every direction, is positively amazing," said His Grace Archbishop Bruchesi, who has returned from a six-weeks' trip through the West, which included Victoria, to a representative of the Montreal Star. "Barely nine years ago I visited Winnipeg and found it at that time a wonderfully progressive city, but I was literally dumbfounded when I saw how remarkably fast it has gone forward even since then. And what can be said of Winnipeg is equally applicable to every other Western city. Regina, Calgary, and Vancouver have all sprung up like vigorous young plants that have suddenly emerged into full-grown trees. And in each of these cities I renewed my friendships with many of the bishops and others, who had either visited Montreal at the time of the Eucharistic Congress, or who had gone from Montreal to carry on the work of the church. You must remember that in a great many cases we have either sent our men out there or else they have sent their own men to be trained in our Eastern colleges and seminaries."

Asked as to the progress of the French-Canadians in the West, the archbishop expressed himself as distinctly impressed with the way in which the majority of the settlers were thriving. "Naturally," he said, "the atmosphere is an English one, and they learn the French language as they would learn any other foreign tongue, but in point of view of their numbers which are relatively small, of course, they evince the greatest desire to carry on the traditions of their race. "Probably what struck me most, however," he continued, "was the marvelous work done all through the West, both in Canada and the United States, by the nursing sisterhoods, all of which have their mother houses in Montreal. The hospitals in that section of the country are literally palaces compared with ours in the East. And another marked impression of my visit consisted in the marked excellence of their roads and their superiority to anything we have of the kind. Probably the automobile is largely responsible, because it seemed to me that the horse was practically obsolete, and that the motor-car was not only the luxury of the rich, but had become an actual necessity for the ordinary man of small means."

Local Improvement Assessment

TAKE NOTICE that the Corporation of the City of Victoria intends to pass a Local Improvement Assessment By-Law for each of the undermentioned streets, assessing upon the properties in the schedules hereinafter mentioned the sums of money for the length of time set opposite each said lot, as follows:

BY-LAW NO. 339

MINISTRY WILL ENCOURAGE EFFORT

FOX FARMING IN PROVINCE OF QUEBEC

Legislation to Protect Persons Who Are Engaged in Industry

Quebec, Nov. 21.—The Montreal Star learns that the Hon. Chas. Devlin, Minister of Colonization, Mines and Fisheries, will, during the next few days, introduce legislation having for its object the protection of those engaged in the business of raising or breeding foxes and other fur-bearing animals kept in captivity.

This legislation will be based on a similar act recently passed by the government of New Brunswick and will, of course, be specially concerned with the breeding of black or silver foxes, an industry which has meant the accumulation of fortunes for those who have taken it up. This project of Mr. Devlin's has already received the approval of the Cabinet.

Supply of Animals.
In connection with this venture the report of Mr. Chambers, special officer of the Fish and Game branch in Mr. Devlin's department, is of special interest.

The report deals with the advantages to be derived from the farming of both game and fur-bearing animals in this province. It points out that the supply of these animals is diminishing in certain sections of the province, and that the extent of territory in which they remain molested and under natural conditions is constantly decreasing.

With regard to the game animals it says that the very successful experiments that have been made in the farming of elk and wapiti and the red deer in the United States, and the satisfactory manner in which specimens of these species have been bred in captivity by Messrs. Holt and Kenfrew, of Quebec, leave no doubt as to the practicability of raising them for food in this province.

Substitute for Beef.
"Besides contributing to the preservation of the species," says the report, "the farming of elk and deer would add materially to our food supply and furnish an excellent substitute for high-priced beef, mutton and pork."

"Venison was more common than beef on the tables of medieval Europe, and was the flesh most commonly eaten by early settlers and frontiersmen in Northern America. Its distinctive value is enhanced by the fact that it requires but one hour for complete digestion."

"There would appear, therefore, to be no reason why both elk or wapiti and the Virginia deer should not be raised as successfully as sheep and cattle in the province of Quebec and even more cheaply. With favorable legislation a profitable industry should result from their domestic production. Much otherwise wasted land might be utilized for the production of venison as well as yield profitable returns and this excellent and nutritious meat, instead of being denied to 99 per cent. of the population of the province, might easily become as common and as cheap in our markets as mutton."

Fur-Bearing Animals.
Arguing that many fortunes have already been made in Canada and the United States in the raising of fur-bearing animals the report ventures the opinion that there is room in the province of Quebec for the making of many more, the value of our fur-bearing animals constantly increasing, as the natural supply of furs diminishes under a growing demand. And no branch of the fur-farming industry promises more successful returns than that of the raising of the black or silver fox.

Mention is made of the case of the Hon. Chas. Dalton, of Tignish, P. E. I., who was one of the pioneers of the industry and has accumulated a considerable fortune from it. Twenty years or so ago he bought two black fox cubs, which came from Anticosti for the sum of \$100 and started in breeding on scientific principles.

Some of Mr. Dalton's foxes have been sold as high as \$5,000 to \$8,000 a pair, and in one year his fox ranch gave him a profit of \$42,000. Recently it is reported, he has given an option of purchase on his fox farm to a group of capitalists for the figure of \$600,000.

Of the 900 silver fox skins sold on the London market in 1910 no less than 90 per cent. brought in upward of \$500.

Some further idea of the money to be obtained from fox-farming may be found from the report that Mr. Tuplin, of Black Bank, P. E. I., recently sold his silver fox ranch for a quarter of a million, for removal to New Brunswick, and he has been engaged to manage it at a high salary.

Isolated Cases.
In a few isolated cases the industry has taken root in the province of Quebec. Mr. Beliz, of Piasre-Bale on the North shore, who has been engaged in it for a number of years, had thirty silver foxes in his possession some months ago. For some years past he has marketed many of the skins, but lately he has found it more profitable to sell the young stock for breeding purposes.

Messrs. Holt, Renfrew & Co. have a silver fox ranch at Lorette, near Quebec, containing no less than twenty cubs of the valuable animals born during the present year. There are a few others.

might well be the scene of the largest and most important silver fox ranches in the world, it being recognized that the farther north the skins are grown the richer is both the texture and the lustre.

FUTURE OF ROOSEVELT

The Progressive party is a one-man affair. Aside from the vote polled for Mr. Roosevelt himself, it has made an extremely small showing. It appears to have elected only eleven members of the House, as against more than ten times as many Republicans. Other third parties, without half the pretension, have done much better than this. There were sixteen variously-assorted Populists elected in 1894, and as many Greenbackers in 1874.

In the state legislatures the Progressive organization cuts a very sorry figure. The men who will make the country's laws, local and general, are either Republicans or Democrats. Nowhere do the third party men even hold the balance of power. The minority room in Washington goes to the Republicans, who saved many more districts than they did in 1890, and about as many as they did in the clean-cut contest of 1892. The minority leader of the House will be a Republican, and his party will be "the opposition."

Of course the Progressives will claim that they are the magnet and all else the filings, and that to them all minority forces must ultimately be drawn. But it is not easy to see how this will come to pass. It will be extremely difficult for Mr. Roosevelt to keep before the American people for the next four years, without holding a public office from which to preach. His field for agitation is also likely to be much circumscribed by the output of progressive ideas of the Democratic congress, after that body has had its fling at new devices destined to "enthrone the people." It is doubtful if any large hunger for further efforts in that direction remains unsatisfied.

The weakness of the Roosevelt party has been its lack of definite and affirmative principles, particularly in the field of national legislation. It has been reactionary to the last degree on the tariff. And yet it was on that issue that the group of senators who have long called themselves Progressives, broke away from the Republican standard. Most of the "causes" which the Roosevelt movement has espoused either come within the domain of state law, or are already in process of being attended to by the older parties. The popular election of senators, for example, and the federal income tax, are in course of adoption on the impetus of a Republican congress.

It accordingly looks as if the Progressive party would dry up and blow away, as have the long line of third parties of the past. Much of course, will depend on what happens in the immediate future. If, in the congressional elections two years from now, the Republicans should make substantial recoveries, the party prestige would be once more restored, and with the prospect of victory under the old banner assured. But if the cleavage in Republican ranks continues undiminished, and one or two presidential elections roll by, with the country given to the Democrats by the failure of the opposition forces to coalesce, the electorate might ultimately turn in desperation to the newer broom. This, however, is extremely remote. The mass of experience is against perpetuity of a one-man party, and particularly a party so lacking in definite excuses for existence.

This is made particularly clear by the inverted pyramid aspect of the Progressive vote. It is largest at the top. It tapers down very fast. It was not in this way that the Republican party of 1860 displaced the decadent Whiggery. That new party laid its foundations deep and strong in popular support. It became recognized as a vigorous opposition in Congress before it successfully grappled with the electoral ticket. And no one man created Republicanism; it had principles enough to summon the service of men whose names are to-day its particular pride. —Boston Herald.

HATS OF THE MOMENT.

Shimmering satin of the black and gold changeable kind was used for the first hat. The lining is of gold cloth and the single loop was placed at the latest approved angle.

The feather-trimmed hat is more elaborate. A white plush bonnet is faced with cerise velvet and has a band of brightly figured velvet brocade ribbon, edged with white ostrich trimming. The feathers at the sides are white, with a dash of pale cerise at the tips.

Local Improvement Assessment

TAKE NOTICE that the Corporation of the City of Victoria intends to pass a Local Improvement Assessment By-Law for each of the undermentioned streets, assessing upon the properties in the schedules hereinafter mentioned the sums of money for the length of time set opposite each said lot, as follows:

BY-LAW NO. 206

Kingston, Montreal to St. Lawrence, St. Lawrence, Kingston, Kingston to Erie and Erie, from St. Lawrence to Dallas Road, Outer Wharf Road, from Montreal Street to Dallas Road, Grading, Draining and Paving With a Heavy Standard Asphalt Pavement, and Constructing Curbs and Gutters on Both Sides of said Road, Also Lateral Connections to Sewers, Surface Drains and Water Mains.

SAFE INVESTMENTS SECURED IN DOMINION

Donald Macmaster's Opinion of Opportunities in the West

Canada as a safe, sound investment field is being most optimistically reviewed through the medium of The Canadian Gazette, published in London, England, in a series of "Impressions of British Parliamentarians" who spent the holiday touring the Dominion. Of special interest is the statement of Mr. Donald Macmaster, Unionist M.P. and former Canadian. He speaks with regard to Canadian investments which have no use for the three E's—the Boomer, the Booster or the Boaster.

Mr. Macmaster says: "Canada is making great and steady progress—the large cities, like Montreal and Toronto, quite as much as if not more than the western sections. The city of Montreal is spreading out over all the valley direction; and now the mountain resistance has to yield to a tunnel beneath it—three miles in length—opening up the ultramontane section to settlement in town sites. Westmont is a revelation in progress, and West Crest Heights is a rival for the finest sites of Mount Royal. I speak mainly of the east and central Canada, as the West has been well discussed by recent visitors.

"The island of Montreal is between twenty and thirty miles long, and varies in width from three to seven miles. The day is not far distant when the city and its extensions will envelop the whole island. Fortunately, park and highway commission has recently been appointed, with Sir William Van Horne as chairman. This is a guarantee for expansion on far-sighted lines—with good roads and parks. The great steamship lines and all the tramp lines run to the port. The harbor improvements are marvelous. The three great railways, the Intercolonial railway and three other lines from the South meet there. In no other city are there such facilities for development and transport. Chicago may be reached and passed, and even New York may have to look to its laurels.

"As to investments, there are many that are safe; but one must not expect to extract sunbeams from cucumbers. It requires great skill, local knowledge and good judgment to buy real estate to advantage. The same qualities are required in other ventures. The man who has the best thing on earth, but who generously wishes to let somebody else have a share for a substantial consideration, is a personage to avoid. Let the boomer pass on the other side.

"There is no reason for anyone lacking trustworthy information about Canada; our great financial institutions are well represented in London—the Bank of Montreal, the Bank of Commerce, the Royal Bank and other banks. And there are, too, the Canadian High Commissioner, the Agents-General for the provinces, and the representatives of the steamship lines, and the three great Canadian railways. From any one of these information can always be obtained—if not in the way of advice, at least in the way of guidance. And it is often more useful to know what to avoid than what to take.

"Canada is a safe place for investment—on sound business lines; but there, as elsewhere, the fool and his money are easily parted. Canadian investment can rest on the solid basis of merit. It has no use for any of the three E's—the Boomer, the Booster, or the Boaster.

Do you see? To those who may smile at the ideas set forth herein, I would say: Throw aside your prejudices. Look around you a little. Go over the list of the persons you know who have really achieved anything worth while in any walk of life. Look into their characters as known to you—you can judge only by the outside, of course, for you cannot look into their minds, but the outside look will suffice for the purpose. Now, honestly, can you say to yourself that there is a single one of the successful persons whom you do not believe is possessed of the creative imagination—that is, the imagination which is constantly looking a little ahead of the immediate hour, and which is mentally picturing that which the person hopes to materialize in reality shortly after? Is it not true that the world's successful people have this great faculty of creative imagination well developed? On the other hand, look at the mass of people sticking in the ruts of life. They are so devoid of the creative imagination that they are apt to sneer and revile those who do possess it—William Walker Atkinson in Nautilus.

HIGH RATES NOT AFFECTING CHARTER MARKET—INCREASES

In spite of the high freights prevailing in the shipping world the charter market retains a marked activity. The list of fixtures for the past few days in the foreign trade from the North Pacific eclipses many previous seasons. Comparisons of rates paid in 1911 and those now paid bring out some interesting figures. Early last year there were a number of sailing vessels in North Pacific ports which were receiving the old union rate of 27s. 6d. for wheat to the United Kingdom. For the same voyage now they are getting almost double the amount. In the lumber trade at the same time sailing vessels were receiving from 41s. 3d. to 42s. for the voyage to the United Kingdom. The Schiffbek, a German barge, which is taking lumber from Vancouver to the United Kingdom, is receiving 50s. when last year she made practically the same voyage at 41s. 3d. Tramp steamers are also receiving a rate as high in comparison for time charters. The Norwegian steamer Hercules, which was in the Waterhouse service to the Orient, is now getting twice as much for her charter in the phosphate trade between Ocean Island and Melbourne, being paid 10,000 a month.

MODISH FUR-TRIMMED SUIT.
The color of this suit is the first thought, "it being the brilliant shade known as geranium. The weave is of the sponge cloth, only very thick and soft.

The coat is of the very plainest possible cut and curved in just a little at the seams. It is closed by black velvet buttons and trimmed with brown marten fur. The skirt is made in two panels, each draped at one side.

EXTERNALLY APPLIED.

Teacher—"The camel can go without water for weeks at a time."
Tommy—"Poh! So could I if I were would only let me."

UNIVERSITY OF LOVE IS LATEST PROPOSAL

Method of Checking Declining Birthrate—Germans Preferred

Herr Dr. Wolfgang Hassall, of Vienna and Munich, wants to start a University of Love. It is the one way to save Germany's marriage rate, which is falling steadily, and her birth rate, which has dropped in 30 years from nearly 40 to 30.

To the eugenists, who affirm that healthy parents are desirable, Dr. Hassall retorts that loving ones are indispensable. Where people love they will marry and have many children. And just as universities of science fit men for life by making them scientific, so universities of love will fit them for domesticity by making them amorous.

Herr Hassall is a serious man and does not call his university "Universität der Liebe," as it would be in German, but "Hochschule der Heiratswissenschaften"—that is, "High School" of the "Marriage Sciences." However, the high school will approach marriage only via love.

The practical obstacles are great. This high school will hold not more than 500 pupils; male and female, while there are 60,000,000 Germans who love, with love, or would, or should have loved. To teach all is impossible. The university therefore proposes to train not lovers, but teachers of love. When the 500 men and made have graduated in the High School of Love, they will be turned out not to love selfishly and narrowly themselves, but to spread the gospel and science of love among the loveless.

Diplomated experts in amorosness will be sent about Germany to teach everything about love that is worth knowing. And that, say the experts, is much.

The curriculum of Dr. Hassall's University of Love is outlined roughly. There will be regular lectures, illustrated by pictures, diagrams and the biograph. One series of lectures will elucidate coquetry and flirting. In his pamphlet on "Neglect of Love in Life," Dr. Hassall says: "Coquetry is the anteroom to love's salon. Once you go in, you go further."

Biologists, zoologists and anthropologists will expound coquetry as observed among lower animals and savages, and experts on ethics will draw the fine line between legitimate coquetry, which grants kisses in dark rooms and gaudy sham passionate flirting which sends men to death.

Next in the curriculum is "The Psychology of Attraction." Attraction differs from coquetry in being a real, though minor part of love. Professors of the science of attraction will tell what things attract and what repel; why fair women like dark men, why dumpy men like blonde women, why dumpy men like blonde women who are studying attraction they will attend lectures on "The Instillation of Love," to learn how to inspire love in indifferent hearts. Dr. Hassall stands for "conscious, consequent wooing."

"There are men of cold, analytical intellects," he says, "who will never be loved by women as long as they act unconsciously. It is legitimate and even necessary for such men to scheme and plot for love. It is as easy to create a synthetic composite love, as it is to create synthetic indigo. The man whom no woman will love may force all women to love him. Every honorable device is legitimate to awaken love."

Dr. Hassall proposes seven other courses of lectures. The last deals with that dull subject, "Love After Marriage." It will teach brides and bridegrooms to keep alive forever the sacred flames.

Hackel, Outward, Simroth, Ballin of the Hamburg line, Frau Bertha Krupp and other distinguished Germans have been appealed to by Dr. Hassall to support his scheme. He says he has had 40 favorable answers.

Austrians and Swiss, and all others who speak

JUDGE GREENSHIELDS GIVES ADVICE ON LAW

Tells Students Accused's
Honesty Must Be
Demonstrated

To always keep faith with the jury and to impress them with a sense of the honesty of the accused, was the cardinal rule to be observed in pleading in the criminal courts, according to the regulations enunciated by Mr. Justice Greenshields, who recently lectured before the members of the Junior Bar Association of Montreal.

Judge Greenshields illuminated and illustrated his remarks with a wealth of narrative, drawn from his own experience, during the twenty-five years in which he was one of the most successful advocates practicing before the courts. As illustrative of the work which a judge was expected to perform, Justice Greenshields prefaced his address, by stating that, since September 16 he had dealt with sixty-five cases, in the Court of Review alone. Many of these cases involved intricate questions of fact or law, and in fifty of them, he had read all the evidence, at least once, consulted the necessary authorities, and written his judgment.

With an occasional jury trial thrown in his way by the Chief Justice, as something of variety and amusement, and the various social calls, which had, of necessity, to be met, Judge Greenshields contended that the occupant of the upper bench had anything but a strenuous life.

One of the greatest disadvantages from which the criminologist suffered, the speaker stated, was that he could never depend upon his client telling him the truth. As a matter of fact, in 95 cases out of a hundred, criminals did lie to their counsel, and it was eloquent of the weakness of human nature that, even to improve their own case, men hesitated to admit their crimes to their lawyers.

How to Treat Jury.

Elaborating his advice to keep faith with the jury, Mr. Justice Greenshields emphasized the necessity of maintaining one line of defence consistently throughout the trial. If one contention was put up, only to be abandoned when the prosecution had torn it to pieces, and another line of defence adopted, the jury would say: "That man is a liar," with the result that his client would become acquainted with the inside of the penitentiary.

The concluding hint which Judge Greenshields imparted was never to disclose the line of defence to be adopted, at the preliminary hearings. As presently constituted, the lower courts did not require very strong evidence for committal, leaving the weighing of the evidence to the superior tribunals. The speaker advised that Crown witnesses should not be cross-examined at all, or only for purposes of information, and not in an endeavor to controvert their evidence. If the line of defence were disclosed too early the Crown would see the weakness of their case, and would put forth every effort to obtain confirmation of the doubtful evidence.

DRIVING OUT TAXIS.

Increase in Price of Petrol Embarrasses Motor Car Men in City of London.

Where will London taxicab drivers get \$50.00 to pay the increase in the price of petrol? That is the question that is agitating London at the present moment. The taxicab men say they must either increase their rates, or be driven off the streets of London. The Home Office will not allow them to increase their rates. The difficulty has arisen over an increase of ten cents a gallon in the price of petrol, this new rate to come into effect on January 1, 1913.

After discussing the matter in all its branches, the taxicab drivers and owners have declared that either the fares must be increased, or the combine that is raising the price of the petrol must be broken up. Otherwise they will have to go out of business.

The price of petrol to taxicab companies on the contracts for 1912 was 12 cents a gallon, plus half the tax—3 cents. The figure for 1913 is 22 cents, plus 3 cents—25 cents a gallon.

Taxicab proprietors claim they have had ready experience a hard struggle, and are going, and they estimate the loss at \$100,000. Industry, up to the present, has kept taxicab companies and many of which are about to be entered into, can only be accepted at considerably enhanced prices.

The new contracts represent an advance in price of 75 per cent, and upwards on the price of 1912. On January 1 next the new charges will come into operation automatically.

"This means that the net cost of running every taxicab in London will be 30 cents a day more. To a company with 500 taxicabs the extra cost would be over \$150,000 a year. There are, roughly, 2,000 taxicabs in London, and this means that the industry is threatened with an additional annual burden of about \$300,000."

"Somebody will have to find the money. According to present arrangements a taxicab driver has to pay for the petrol used by his cab, which is supplied to him by the company at cost price. For a long time past the men have contended that they cannot make a living even under these conditions."

The proprietors certainly cannot stand the increase in fares. At the present moment they are trading at a loss, if proper depreciation is taken into account.

The Home Office has been petitioned time after time to change the conditions under which taxicabs are run. Demands have been put forward for an increase in the fares and a lightening of the taxes. "We cannot afford to carry the public in a vehicle which costs \$2.00 at 10 cents a mile."

The fares were fixed on a basis which has lately been altered, to the detriment of the proprietors. The drivers now receive all the extras for passengers and luggage. Originally the companies took them, less 25 per cent. for the drivers. "Yet the companies only charge the same rate of 15 cents a mile. This represents a loss of something like 45 cents a cab per day to the proprietors, and makes all the difference between trading at a profit and at a loss."

STERILIZATION LAW BEFORE THE COURTS

Status of New Scheme of Eugenics in United States

CINEMATOGRAPH IN WAR.
Lloyds Increases Operators' Rates
More Than Six-fold.

With the outbreak of hostilities in the Balkans Lloyds' insurance rates on cinematograph operators proceeding to the front went up from 4 guineas to 50 guineas per cent. There was considerable excitement over this practically new industry as a war risk, both at Lloyd's and amongst the film service firms in Charing Cross road and Long-acre that are sending operators out on the dangerous work of securing pictures of the fighting in the Near East.

Over fifty men have already left London for their perilous work, and these, added to the Continental operators already on the spot, are being covered by their employers against the risk of death by "accident." The period to be embraced by the premiums paid for this insurance is the next six months.

"The risk of operators," said the manager of one of the largest firms supplying pictures to London theatres, to a representative of the press "are very great. The boxes they carry have been specially designed for war work. They are fire-proof as well as light-proof, and to some extent armoured. They weigh about 200 pounds each, so you see it will be a difficult matter to manipulate them. A carrier makes a bulky outfit for a Martin-Henry. Most of the men have gone via Constantinople to the theatre of war. Those who have tried to cross the continent by train have had to slip down to Naples and sail from thence also to Constantinople. Hampered as the operators are, however, it is expected that the first films of actual fighting in the Balkans will be showing in London within a fortnight. Mobilization pictures, with all their warlike array, from the Montenapoleon hills are already on their way to England."

PIERPONT MORGAN'S LATEST ART GIFTS

Compromising the permanent breach Many interesting objects recently acquired by the Metropolitan Museum of Art were shown for the first time in the regular monthly press view, especially noteworthy being a Florentine early sixteenth century "Descent from the Cross," bought by the museum; a collection of Spanish jewelry from the Philippine Islands, given by Mr. J. Pierpont Morgan, and a collection of Japanese art objects, including bronzes, sculptures, paintings and textiles, obtained for the museum in Japan by Mr. G. C. Pier.

The "Descent from the Cross" is a small picture, purchased last summer and reproduces the general composition of the large altar piece now in the Academy of Florence, begun by Filippo Lippi and finished by Perugino. The reproduction could not be by Filippo Lippi himself, but is probably by one of his followers. It is in an exceptional state of preservation, and the colors are remarkably for their gentle brilliancy.

Lippi was able to finish only the figures of the upper half of the great altar piece. Even these were modified by Perugino, and the lower figures are entirely by him. In the museum's picture, however, the forms and types throughout are distinctly those of Filippo Lippi.

The collection of Spanish jewelry given by Mr. Morgan consists largely of necklaces and pendants, many of the latter being either crosses or images in ornamental settings. The style is not pure Spanish, but seems to have been affected somewhat by the East, for there is a barbaric note running throughout that is not entirely due to the Moorish element that also is conspicuous. Some of the style is similar to that of the Spaniards in Mexico in the seventeenth and eighteenth centuries. Especially interesting are the necklaces made of coral and gold, in some of which the corals are covered with basketlike ornaments of fine gold.

Of special interest among the art objects from Japan are three large gilded wood sculptures, four feet in height. Two, representing Buddhist divinities and dating back to the twelfth and thirteenth centuries, are remarkable for their delicacy and beauty of outline. Female figures are represented and the outlines are rounded and graceful. The figures, from the same period, represent the "Protector of Children." This is a figure, serious but gentle, bearing a child in one hand and a lotus flower in the other. Also worthy of note is a painting called "The Nebanoso," a sixteenth century copy of a kakemono by Meicho (1552-1621). There is also a kakemono of Monju, the god of wisdom, and a landscape by Chiu Ying, a Chinese painter of the later Ming dynasty. These gilded bronze statues are from the Wei dynasty, which reigned in Northern China from the fourth to the sixth century. A priest's ceremonial robe, a piece of Kyoto tapestry, showing a Thibetan influence, and two No dance costumes are also of interest.

Mr. Clarence H. Mackay has presented to the museum a pair of garmets, beautifully designed, which once belonged to Thomas Rattcliffe, Earl of Sussex. The garmets were made in the English royal atelier at Greenwich, probably about 1570, and are in an excellent state of preservation.

Among the new acquisitions is an Egyptian historical stela of the twelfth dynasty, the gift of Mr. Edward S. Harkness.

A screen, decorated with comic prints by Cruikshank, Rowlandson and other artists of the early nineteenth century, is the gift of Mr. and Mrs. Richard King.

The museum in December will open a series of special exhibitions of drawings in the collection of Mr. Morgan.

IS IT BIG ENOUGH?

"If you want to make that song successful you must sing louder."
"I'm singing as loud as I can. What more can I do?"
"Be more enthusiastic. Open your mouth and throw yourself into it," the stamp.

STERILIZATION LAW BEFORE THE COURTS

Status of New Scheme of Eugenics in United States

Eight states of the American Union have passed laws providing for the sterilization of certain specified criminals, imbeciles and others who it is supposed might perpetuate their vices and weaknesses. In the State of Washington not long ago a man was convicted of a crime against a child ten years old, and the judge ordered that the prisoner be sterilized. An appeal was taken as to the constitutionality of the law, and the court held that it was within the powers of the state to pass and enforce such a measure. New York also has a sterilization law, and it is expected that in the near future a test case may be made, for a good many lawyers believe that the court that upheld the Washington law made an error, and that the law will be declared unconstitutional. Dr. Woods Hutchinson, the most popular medical authority in the United States, is a strong believer in the wisdom of the sterilization of criminals and degenerates, but he fears that the courts may throw it out on the ground that it constitutes "cruel and unusual punishment."

The constitution of the United States expressly forbids "cruel and unusual" punishment, and if it can be shown that the sterilization law is cruel and unusual it will have to be removed from the statute-books of the eight states that have adopted it. As a general rule, doctors in the United States are in favor of the law; and as a general rule lawyers believe that it is unconstitutional. The doctors argue that as regards the operation on a male it is not more serious or painful than the extraction of a tooth. In some cases it has been performed without an anesthetic. In view of the fact that the Indiana law allows a doctor performing the operation only \$2, it is plain that it is a trifling one, as far as the surgeon is concerned. The corresponding operation in the female is much more serious.

In Indiana not fewer than 30 inmates of the state prisons and asylums have been operated upon, several of them at their own request. The Indiana law permits the board of managers, warden and physician of a prison to decide who shall be operated upon, and lawyers who have discussed the matter believe that the Indiana law is by all means the most dangerous passed in any of the states that have approved the principle of sterilization. That it has placed a terrible weapon in the hands of unscrupulous persons is admitted, and the physician is encouraged to vote for the performance of the operation by the fee that is attached to it. It might be easy for the collateral relatives of a rich man to trump up a charge of insanity against him, have him removed to an asylum, and there make it impossible for him to be derived from him.

The New Jersey law is much more cautiously framed. It provides for the most careful examination of every individual and his family history by experts before the operation is performed. The safeguards, in fact, render the law inoperative, and it is practically a dead letter. Some of the states prescribe sterilization as punishment for certain crimes against women and children, and the lawyers believe that it is these laws that will be most easily assailed on the ground that they constitute "cruel and unusual punishment." Other states most prominent that sterilization is punishment at all. It is passed as a sort of police measure. In these states it is felt that it will be more difficult to assail the law, as the constitution is dumb as to what measures may be taken to preserve the public health.

Despite the claims of some investigators, it cannot be yet proved that criminal tendencies are inherited. There is the notorious case of the Jukes family, traced by Dugdale through five generations. He found that of 700 members of this family 75 were convicted of crime, 150 were paupers and beggars, and more than half the women were insane. In the Kallikak family only feeble mindedness was shown to have been inherited. The criminal tendencies followed in some cases because of the feeble-mindedness of the victim. The biologists differ on the question as to the inheritance of acquired characteristics, and criminality is surely acquired. It is agreed that some steps should be taken to prevent habitual criminals and weak-minded persons from being at large, and if this precaution were taken it would incidentally prevent their procreation. That it would be wiser, on the whole, to keep them in perpetual confinement will be the general opinion.

GERMAN POSTOFFICES.

Sarcastic Writer Frees His Mind About Their Methods.

The post offices in Germany are peculiar institutions, says F. Harris Deans in the Wide World Magazine. They are a farago of the people, the people, they allow for expansion. If there are any post offices in the country of less than three stories, I must have overlooked them. Every floor is divided into four departments, and every department has about a dozen offices.

In some of the smaller towns where business is not very brisk the staff consists of one official. You have to make an appointment with him if you want to be served. Entering on the ground floor you run round and tap with your money at every pigeonhole until he answers. You then ask him for a stamp, whereupon he orders you to go to No. 1 pigeonhole and wait there till he comes. You wait patiently for about five minutes and then he pops his head out of No. 2 and wants to know if you've gone to sleep. When you ask for a 5-cent stamp he says, "Oh, I thought it was a 5-cent one you wanted," and instructs you to try at No. 7. At No. 7 he probably discovers he has run out of 5-cent stamps and you have to go to windows No. 3 and No. 11 and get 5-cent ones and a 1-cent one.

By this time you are getting quite friendly, and when you ask him where the telegraph office is he will probably get out his guidebook and hunt the place out for you. He may even offer to take you there himself, as he's the telegraph clerk as well and has got to get there anyhow in order to attend to you.

Local Improvement Assessment

TAKE NOTICE that the Corporation of the City of Victoria intends to pass a Local Improvement Assessment By-Law for each of the undermentioned streets, assessing upon the properties in the schedules hereinafter mentioned the sums of money for the length of time set opposite each said lot, as follows:

BY-LAW NO. 292									
Government Street, from Cormorant Street to Douglas Street, Lighting by Means of Electric Light, Columns Bearing Cluster Lights, and Constructing the Necessary Conduits for Carrying the Wires Underground.
